Oliver Morgan,1998 We are born into it it is there throughout our lives and we die in its care As the National Health Service passes its fiftieth birthday there is a growing fear that the foundations on which it was established are crumbling This book looks behind the headlines and explains in a simple straightforward way what has happened to our NHS and what future waits in store The most recent NHS reforms the internal market will be replaced But by what Can the system be made more accountable How can the balance of knowledge be shifted towards the patient Is the NHS underfunded Should some elements of NHS activity be charged to patients Will the British public agree on what is an illness Can this lead to rational rationing Can the relationship between public and private sectors be made to work The time for a fundamental debate on the future of the health system has come It is a debate of great importance and one we must face now before it is too late In this extensively researched work author and journalist Oliver Morgan traces the development of the NHS assesses its current state of health and opens the debate on its future

The Politics of Health Policy Reform in the UK Calum Paton,2016-09-21 This book explains the politics of thirty years of market reform in the English NHS with the rest of the UK a counterfactual Paton shows how each subsequent reform has been shaped by the confusion left by the previous reform The long term ideology has been anti statist but policy making at each stage of reform has been driven by short term politics The outcome in England has been ever increasing complexity in the NHS with significantly increased management costs and no commensurate benefit

EBOOK: The New Primary Care Bernard Dowling,Caroline Glendinning,2003-10-16 The modernization of the NHS is at the heart of the UK government s policies for public sector services This modernization programme represents the most radical and ambitious restructuring of the NHS since its inception in 1948 The new Primary Care Groups and Trusts PCG Ts are the main organizational mechanism for delivering the modernization agenda and are therefore key to the success or otherwise of these reforms To date there has been no comprehensive evaluation of how PCG Ts have been performing in implementing the modernization programme this book fills that important gap in knowledge It provides a strong text of first evidence about the performance of PCG Ts to date this forms the basis for discussions about future success and a benchmark for future research The New Primary Care will be an essential resource for all advanced students of health care as well as academics researchers and policy makers
