Child Updated and Revised Edition Ross W. Greene, 2021-08-17 A groundbreaking approach to understanding and parenting children who frequently exhibit severe fits of temper and other intractable behaviors from a distinguished clinician and pioneer in this field. What's an explosive child? A child who responds to routine problems with extreme frustration, crying, screaming, swearing, kicking, hitting, biting, spitting, destroying property, and worse. A child whose frequent severe outbursts leave his or her parents feeling frustrated, scared, worried, and desperate for help. Most of these parents have tried everything: reasoning, explaining, punishing, sticker charts, therapy, medication, but to no avail. They can't figure out why their child acts the way he or she does; they wonder why the strategies that work for other kids don't work for theirs, and they don't know what to do instead. Dr. Ross Greene, a distinguished clinician and pioneer in the treatment of kids with social, emotional, and behavioral challenges, has worked with thousands of explosive children, and he has good news: these kids aren't attention-seeking, manipulative, or unmotivated, and their parents aren't passive-permissive pushovers. Rather, explosive kids are lacking some crucial skills in the domains of flexibility, adaptability, frustration tolerance, and problem solving, and they require a

different approach to parenting Throughout this compassionate insightful and practical book Dr Greene provides a new conceptual framework for understanding their difficulties based on research in the neurosciences He explains why traditional parenting and treatment often don t work with these children and he describes what to do instead Instead of relying on rewarding and punishing Dr Greene s Collaborative Problem Solving model promotes working with explosive children to solve the problems that precipitate explosive episodes and teaching these kids the skills they lack *The Explosive Child* Ross W.
