Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In Pyramid Quest Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings

The Architect of the Pyramids R.K. Owens,2022-01-14 The mystery of the Pyramids has been solved For thousands of years the Pyramids have been enshrouded in mystery and their purpose for being built has been an enigma This book solves the mystery of the Pyramids and presents the mathematical discoveries in a clear and rational way The connection between the mathematics of the Pyramids and the Crop Circles is revealed Mathematician R K Owens presents compelling findings about the geometry behind the Pyramids Using the Golden Ratio Vesica Piscis and Pi new and exciting discoveries are presented mapping the precise geometry behind the Pyramids of Giza the conical structures of Guachimontones and the Sun and Moon Pyramids of Teotihuacan The mathematics that appears in natural organic growth is the same mathematics that unifies the Pyramid complexes R K Owens demonstrates the interconnections between the height slopes and base of the Pyramids He shows how the same measurements that appear in the Pyramids of Giza are also the same mathematics and ratios of sunflowers and natural organic growth The mathematics of the layout of the Pyramid complexes is mapped out demonstrating the reason for the three Pyramids being lined up in the way that they are The reason that the third smaller Pyramid is offset by a number of degrees is mathematically explained The same mathematics and ratios that appear in the layout of the Pyramids of Giza also occurs in the structures of Guachimontones and the Sun and Moon Pyramids of Teotihuacan This is demonstrated in this book with clear mathematics Most compellingly R K Owens decodes the mathematics of Crop Circles that feature the same mathematics as the layout of the Pyramids This presents questions as to the origin of the Pyramids and our own sacred origins as a human race
