*The Coronavirus Pandemic in Japanese Literature and Popular Culture* Mina Qiao, 2023-09-01

This volume is the first book-length collection on Japanese literary and popular cultural responses to the coronavirus pandemic in English. Disrupting the narrative of COVID-19 as a catastrophe without precedent, this book contextualizes the COVID-19 global public health crisis and pandemic-induced social and political turbulence in a post-industrial society that has withstood multiple major destructions and disasters. From published fiction by major authors to anonymous accounts on social media, from network TV shows to contents by Virtual YouTubers (VTubers) in both high and low culturescapes, timely representations of coronavirus and individual and social livings under its impact emerge. These

narratives either personal or top down all endeavor to fathom this unexpected disruption of modern linear progress Exploring the paradoxes underlying the new normal of Japanese society of the present day the book collectively demonstrates how the narratives of coronavirus are not neo but re returning to the past revealing existing problems and reclaiming memories lost and lessons forgotten This edited volume will be of interest to researchers and students in the fields of Japanese culture and society Japanese literature and pandemic studies Le dispensaire antituberculeux de Lyon Saturnin Arloing,1908
