## **Spotify Near Me Returns:**

Copyfight Phillipa McGuinness, 2015-05-01 Writers musicians filmmakers gamers lawyers and academics talk about why copyright matters to them or doesn't. We expect to be able to log on and read, watch or listen to anything anywhere anytime. Then copy it, share it, quote it, sample it, remix it. Does this leave writers, designers, filmmakers, musicians, photographers, artists and software and game developers with any rights at all? Have we forgotten how to pay for content? Are big corporations and copyright lawyers the only ones making money? Or are we looking in the wrong direction as illegal downloading becomes the biggest industry of all and copyright violation a way of life? In this provocative book, John Birmingham, Linda Jaivin, Marc Fennell, Clem Bastow, Lindy Morrison, Imogen Banks, Dan Hunter, Angela Bowne and others fire up the copyright debate like never before.

*Proceedings of the 7th International Conference on Economic Management and Green Development*

Xiaolong Li, Chunhui Yuan, John Kent, 2024-02-26 Economics has always been a heated research topic and green development is rising and integrating with various fields for interdisciplinary studies. Initiated in 2017, the International Conference on Economic Management and Green Development (ICEMGD) is an annual conference aiming at bringing together researchers from the fields of economics, business management, public administration, and green development for the sharing of research methods and theoretical breakthroughs. The 7th International Conference on Economic Management and Green Development (ICEMGD 2023) was held on August 6, 2023. It was a hybrid conference including several on-site workshops and an online session. The workshops were held in London, Gala, Birmingham, Sydney, and Beijing. The proceedings consist of papers accepted by ICEMGD 2023, which are carefully selected and reviewed by professional reviewers from corresponding research fields and the editing committee of the conference. The papers have a diverse range of topics situated at the intersecting fields of economic management, public administration, and green development. ICEMGD is working to provide a platform for international participants from fields like macro and microeconomics, international economics, finance, agricultural economics, health economics, business management, and marketing strategies, regional development studies, social governance, and sustainable development. This proceedings volume, together with the conference, looks forward to sparking inspiration and promoting collaborations. This book will be of interest to researchers, academics, professionals, and policymakers in the fields of economic management, public administration, and development studies.

Phil Graham, 2019-03-25 This collection of interviews captures a period of historic change for the global music business, along with a wealth of professional knowledge that extends from the late 1960s through to late 2012 when the interviews were conducted. They record the experiences and insights of people who helped to shape a global business that is quickly passing into history and transforming into something entirely new, often because of decisions the interviewees have been directly involved in making. The material includes the aesthetic, artistic, technical, commercial, legal, and strategic aspects of the music industry. What is said is timeless in its historical significance for the music business and in its relevance for researchers.
