Whitman also calls for urgently needed changes that would make it easier for every American to enjoy a vital and meaningful second half of life Whether you are approaching fifty into your later years or caring for someone who is you ll find a wealth of wisdom in these pages Informed by Whitman s unmatched expertise and her deep passion The Second Fifty is an indispensable guide for living well in the twenty first century *Studyguide for Delivering Health Care in America by Shi, Leiyu* Cram101 Textbook Reviews,2013-05 Never HIGHLIGHT a Book Again Includes all testable terms concepts persons places and events Cram101 Just the FACTS101 studyguides gives all of the outlines highlights and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanies 9780872893795 This item is printed on demand **Silver Opportunity** Xiaohui Hou,Jigyasa Sharma,Feng Zhao,2023-03-14 We live in a rapidly aging world in which people who are age 60 and older outnumber children under the age of five This book reveals large and growing gaps in care for older adults in countries at all income levels and shows how to leverage reforms for improving health outcomes for older adults and create healthier more prosperous communities Aimed at policy makers and other health and development stakeholders who want to promote healthier aging Silver Opportunity compiles the latest evidence on care needs and gaps for aging populations It argues that primary health care should be the cornerstone of integrated service delivery for older people but primary health care systems must first build their capacity to respond to older people s health needs It presents an original framework for policy action to advance primary health care centered integrated senior care documents the experiences of pioneering countries in delivering community based care to older people and provides recommendations for decision makers The framework presents four policy levers with which to improve health care for seniors financing innovation regulation and evaluation and measurement or FIRE Finally the book posits that by acting now countries can leverage population aging to accelerate progress toward health equity and universal health coverage
