Globalisation and Multicultural Education Joseph Zajda, Suzanne Majhanovich, 2024-11-11 This book analyses dominant discourses of globalisation multiculturalism and schooling. The chapters advance further the discussions on globalisation and its impact on cultural diversity and multiculturalism in a globalised world. Multicultural education as presented in this volume is seen in a broad context. It includes factors such as race ethnicity gender socio economic status culture age and physical ability as well as a variety of beliefs and values. Zajda has argued that globalisation represents a synthesis of technology ideology and organisation specifically related to border crossings of people global finance trade IT convergence as well as cross cultural communication. The reality of multiculturalism has been brought into stronger focus because of globalisation. Multiculturalism is more evident today because of globalisation. The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation and dominant models of multicultural education and their impact on students engagement and academic achievement.

Brunet, Kristina R. Llewellyn, Rose Fine-Meyer, 2024-11-07 This is the first edited collection to focus on women gender and history education in Canada. The aim of this edited collection is threefold to offer a historical analysis of women and gender in K 12 teaching and learning of history to provide an examination of women and gender in relation to contemporary pedagogy curriculum and resources in K 12 history education and teacher education and to explore the future of history education when informed by intersectional feminism and gender theory. This collection is the beginning of a long overdue conversation about women and gender in how we teach and learn about the past.

*Canadian Literature and Medicine* Shane Neilson,2023-09-08 Canadian Literature and Medicine breaks new ground by formulating a series of frameworks with which to read and interpret a national literature derived from the very fabric of that literature in this case Canadian Canadian literature is of particular interest because of its consideration of coloniality Indigeneity and coincident development alongside a nascent socialized medical system currently under threat from neoliberalism The first chapters of the book carefully track the development of Canada's socialized medical system as it manifests in the imaginations of the nation's poets and authors who depict care Reciprocal flows are investigated in which these poets and authors are quoted in policy documents The archive based methodology is sustained in subsequent chapters that rely upon a unique interdisciplinary mix of medical history philosophy of medicine medical policy theory inherent to the field of Canadian literature focusing in particular on the garrison mentality as a form of aesthetic protest and the feminist ethics of care and Indigenous ways of knowing

### **Transcending Equality, Diversity and Inclusion at Work** Marguerite L Weber,Hugo Gaggiotti,2024-06-07

The book reflects on ways of transcending Equality Diversity and Inclusion EDI by establishing a dialogue between the professional experience of the authors and experts from academia and practitioners from financial services and executive search The book emphasises the link and impact between what is taught and what is learned about EDI and how this reflects on later choices in career and workplace status The book offers a critical and global perspective emphasizing the multilocality and intersectionality dimension of diversity and unpicks key insights from different conceptualizations like class gender and postcolonialism and their relationship with the current paradigm of diversity and how people identify and communicate With an extensive collection of testimonies and invitations for reflection the book doesn't limit the analysis to the influences of historical power relations in the workplace but investigates at what stage multicultural power structures start developing a compulsory inclination to create differences and how this can influence hiring decision making and

management in the workplace In the book academics and practitioners provide illumination and insights gleaned from their own personal experiences and perspectives Whilst the research targeted financial services and executive search the book's findings will appeal globally to individuals of all age groups regardless of educational status seniority or in which industry they are employed particularly those who are aware of how each one expresses similarity and differences sometimes in not obvious ways
