Studying Ethnic Identity Methodological And Conceptual Approaches Across Disciplines:

Studying Ethnic Identity Carlos E. Santos, Adriana J. Umaña-Taylor, 2015 Humans are a fundamentally social species As individuals we construct our identity through our affiliation interaction and identification with larger groups And in diverse and multiethnic societies like ours ethnic identity takes on an especially profound importance In recent years social scientists have been increasingly studying the meaning process and content of ethnic identity but these efforts have been piecemeal and the field as a whole has suffered from a lack of conceptual clarity and methodological rigor In this book editors Carlos Santos and Adriana Uma Taylor bring together a diverse group of social and applied scientists from a wide range of fields including educational anthropology developmental community and social psychology and sociology Together they investigate the process by which ethnic identity is formed and maintained throughout the lifespan Authors present qualitative and quantitative approaches to conceptualizing and measuring ethnic identity including narrative psychology and ethnographic approaches cognitive schemas and semi structured interviews as well as analyses of social networks Throughout authors present contextually rich accounts of ethnic identity that keep the focus where it belongs on the lived experience of real people Publicity materials PsycINFO Database Record c 2015 APA all rights reserved Ethnic Identity of the Kam People in Contemporary China Wei Wang, Lisong Jiang, 2021-07-19 Based on three years of fieldwork in Zhanli a remote Kam Village in Guizhou Province Wang and Jiang explore the complex dynamics between the discursive practices of the local government and the villagers in relation to the reconstruction of Kam identity in response to social change particularly the rise of rural tourism China's profound demographic and socio economic transformation has intensified the dominance of Han culture and language and seriously challenged the traditional cultures in ethnic minority areas The authors draw on multiple empirical sources including in depth interviews with Kam villagers and local officials field observations media discourse local archives and government documents They present an engaging account of the significant compromises that government and villagers have made in relation to ethnic identity in the name of economic development and of the tensions and struggles that characterise the ongoing process of ethnic identity reconstruction Students and researchers in sociolinguistics ethnography and discourse studies especially those with an interest in Chinese discourse and everyone interested in issues around ethnicity minzu issues in China will find this book a valuable resource *Cultural Methods in Psychology* Kate C. McLean, 2022 As I sat down to write this chapter about the use of life story methods for capturing cultural historical aspects of LGBTQ identity development I was transported back in time It was a hot summer day in 2004 I had travelled back from the big city where I was attending university to visit my family This was my first summer away from home At that moment my family and I sat in the parking lot of a diner having just finished breakfast at a local greasy spoon a ritualistic send off before I started my four hour return drive In those moments our car felt unusually cramped My dad was in the back seat with me my mom and brother in the front I didn't have much of an appetite that morning knowing that in mere minutes I would come out

to my family as gay On our way out of the restaurant walking to our separate cars I somehow managed to muster up the courage to tell my family there was something important I wanted them to know So there I was in the backseat of the car with a message for my family Looking back on it the message was more like an ultimatum They could learn to love this new version of me as I had done or our routine see you later might be a goodbye This is the beginning of my story both my coming out story and in some ways my life story Thankfully my family is still an important part of this story **Identity in**

Adolescence 4e Laura Ferrer-Wreder,Jane Kroger,2019-07-05 This fully revised fourth edition of Identity in Adolescence The Balance Between Self and Other presents four theoretical perspectives on identity development during adolescence and young adulthood and their practical implications for intervention Ferrer Wreder and Kroger consider adolescent identity development as the unique intersection of social and cultural forces in combination with individual factors that each theoretical model stresses in attempting to understand the identity formation process for contemporary adolescents Identity in Adolescence addresses the complex question of how adolescent identity forms and develops during adolescence and young adulthood and serves as the foundation for entering adult life The book is unique in its presentation of four selected models that address this process along with cutting edge research and the implications that each of these models hold for practical interventions This new edition has been comprehensively revised with five completely new chapters and three that have been extensively updated New special topics are also addressed including ethnic sexual and gender identity development the role of technology in adolescent identity development and ongoing identity development beyond adolescence The book is essential reading for advanced undergraduate and graduate students studying adolescent development self and social identity within developmental psychology social psychology and clinical psychology as well as practitioners in the fields of child welfare and mental health services social work youth and community work and counselling Abstracts and Bibliography ,1993
