SOAP FORMAT

S - Subjective

Patient states facts that support the focus of the session. Brief statements reported by the patient may be used, as well as paraphrased statements.

Client reported feeling depressed, but not suicidal, since his bike accident and stated "I didn't care if I was sad with the pain or crash." He stated, "I don't believe in treatment, but I'll give it a try as long as I have help with the cravings." He reported being fearful of relapse due to strong cravings, but stated "I feel better being on Suboxone, it makes the cravings more manageable." He reported residual pain from his bike accident.

O - Objective

Observable data or information supporting the subjective statements. This may include the physical appearance of the patient (e.g., weight, clarity, comfortable, disheveled, well-groomed, well-maintained, etc.) signs, results of completed lab/diagnostic test, and medications the patient is currently taking or being prescribed.

Client was withdrawn and guarded. He participated in group therapy and engaged in the group process with the help of the counselor. He was able to identify two "triggers," such as "seeing the scene from my accident" and "being around other people who use stuff." Withdrawn symptoms have resolved, however, he still has strong cravings despite improvement since starting Suboxone.

A - Assessment

The counselor's or clinician's assessment of the situation, the session, and the patient's condition, progress, response to intervention, and progress in achieving treatment plan goals/objectives. This may also include the diagnosis with a list of symptoms and information used in differential diagnosis.

Opioid use: post-withdrawal. Overall, Mr. Doe appears engaged in SUD treatment at this time. He still has strong cravings and is fearful of relapse, but appears to be responding to Suboxone. Unclear if higher dose is necessary – will coordinate with Suboxone prescriber. He continues to report depressive and pain symptoms and would benefit from further mental and physical health follow up, respectively.

P - Plan

The treatment plan/next forward, based on the clinical information reported and the assessment.

Substance Use

- Client will continue DOP and MAT as prescribed. He agreed to attend at least 1 Narcotics Anonymous meeting at least 1x per week. Continue Suboxone and coordinating with Suboxone prescriber.

- Counselor will refer the client to case management for help with housing and employment. Mental Health

- Given ongoing depressive symptoms, will refer for mental health assessment.

Physical Health

- Client will call his PCP to make an appointment by next week.

- Refer to case management to Cx to ensure the client made PCP appointment.
