**The Kingdom of the Unselfish** John Lord Peck, 1889    [The Risks and Ethics of Human Gene Editing](#) Madeleine Hayenjelm, Christer Nordlund, 2025-02-01 This Open Access book is about the risks and the ethics of human germline gene editing i.e. the possibility to make heritable changes to the DNA of early human embryos or germ cells. Is there something particularly morally problematic about editing the human germline? Is there something unique about germline editing and if so does this suggest that we ought not to edit the human germline or only in particular circumstances or for particular purposes? What would be a wise and responsible approach to editing the human germline from a moral perspective? The book has three broad aims. First to present an inclusive map over the current scholarly debate on the ethics of human germline gene editing. Second to provide a philosophical and critical guide to the various ideas and arguments in this debate. Third to apply an ethics of risk perspective and defend a morally cautious position on human germline gene editing    [Talk of the Town](#) Mrs. John Lane, 1911    *Teaching Civics in the Library* Renée Critcher Lyons, 2015-10-29 Civics education is on the books in all 50 states yet civic illiteracy is widespread. Only one third of 12th graders are able to explain the significance of the Declaration of Independence and fewer than half of 8th graders know the purpose of the Bill of Rights. This instructional guide explores the foundations of civics education and the reasons for its demise with commentary from civics education leaders and scholars across the nation. Questions for eliciting civics discussion are provided for all grade levels along with detailed civic action and service projects and reading plans. Best practices and grant writing options are included. The author argues for a

return to early 20th century civics education and details the traditional and present day role of America's libraries in developing a civic minded populace School and public librarians are urged to utilize trade books and carefully evaluated websites to integrate civics within educational and youth services offerings *Bulletin Missouri.
