squarely on ways to bring about deep rather than surface learning to all students. The authors use and model many of the teaching strategies they present focusing on major core concepts and utilizing a rich array of pedagogical features to help prospective teachers build a deep understanding of how people learn and what strategies they can use as teachers to help their students achieve long lasting comprehension. Throughout the text the authors emphasize the need to change instruction in light of new findings from cognitive science. Planning for instruction, behavior management and technology are integrated into each chapter.
