Weaving The Net Conditional Engagement With China:

Weaving the Net James Shinn, 1996 China is emerging as a new great power in Asia But what kind of power will China become a wealthy trading partner or a belligerent adversary This book argues for an American strategy that acknowledges and is fully prepared to deal with the vast uncertainty about China s future trajectory *What if China Doesn't Democratize?*

Edward Friedman, Barrett L. McCormick, 2015-06-11 Exploring one of the most dynamic and contested regions of the world this series includes works on political economic cultural and social changes in modern and contemporary Asia and the Pacific

The US Policy Making Process for Post Cold War China Wenzhao Tao, 2017-07-13 Combining a study of American Think Tanks and a study of American diplomatic policy on China following the Cold War this book explores in detail the policy making process procedures and mechanisms as well as the roles of various interest groups in the policy making process for China related policies Further it dissects the policy making process with regard to selected sensitive policies such as the US diplomatic policy on Taiwan China US trade policy on China US human rights policy on China and US environmental and energy policy on China and analyzes the function and influence of the American Think Tanks in the policy debates Characterized by its high theoretical value wealth of historical materials and painstaking analysis the book is not only of important academic value but also offers a valuable reference guide to support the practical work of related departments in the Chinese government

China In The United Nations Wei Liu, 2014-04-04 This book examines China s participation in the United Nations UN There are two research components First the author seeks to find a pattern of China s multilateral diplomatic behavior in the UN by examining China s behavior toward peacekeeping operations and arms control issues during different leadership periods under Mao Zedong Deng Xiaoping and Jiang Zemin respectively Second a model is proposed to explain this pattern of behavior By marrying rationalism and constructivism this model argues that the amelioration of China s external security environment changes in its projected self image Furthermore China s consistently strong view of sovereignty determines its evolving pattern of behavior in the UN Advancing East Asian Regionalism

Melissa Curley, Nicholas Thomas, 2012-10-12 Developments in East Asia have progressed rapidly in terms of regionalism since the 1997 crisis The end of the Asian miracle called into question not only the capacity of regional states to meet the needs of their attendant peoples but also challenged the viability of regional organizations such as ASEAN to adapt and respond to the changing circumstances Advancing East Asian Regionalism looks at the ways in which ASEAN has expanded since the crisis and evaluates the potential of East Asia to come together in a regional formation one capable of representing the region as a whole akin to the European Community It draws upon the knowledge and perspectives of academics and policy makers actively engaged in the contradictory issues of regionalism Coupling case study material on regionalism institutions and sectoral cooperation with theoretical debates on regionalization this book is an invaluable resource that pushes our understanding of East Asian regionalism forward

Chinese Foreign Policy Suisheng Zhao, 2016-07-22 This

volume explores how China is adapting to international norms and practices while still giving primacy to its national interests. It examines China's strategic behaviour on the world stage particularly in its relationships with major powers and Asian neighbours. **The Future of China and Northeast Asia** Tae-Hwan Kwak, Melvin Gurtov, 1997 *China and East Asia* Xin Xu, 2003 *East Asian Review*, 2003 *Japan Review of International Affairs*, 1996 **The Japanese Economy**, 2001 *Great Decisions* Foreign Policy Association, 1995 *American Studies International*, 2000 **Principles Under Pressure** Kim Houn Kao, Jeffrey A. Kaplan, 1999 *Regionalism and Multilateralism* Amitav Acharya, 2003 These essays written between 1990 and 2000 cover the most significant phase of multilateral institution building in the Asia Pacific region. They deal with the emergence of regionalism in Southeast Asia ASEAN's transition to the post Cold War era the role of the ASEAN Regional Forum the engagement of China the changing relationship between sovereignty and regionalism and prospects for the regional institutions such as ASEAN APEC and the ARF after the Asian economic crisis. The essays address the most challenging issues of regional order and articulate an institutionalist understanding of international relations in the region. This updated second edition includes four new chapters and two revised chapters. **Alliance Tomorrow** Yōichi Funabashi, 2001 *The OSCE and Co-operative Security in Europe* Joachim Krause, 2003 **Big Dragon** Daniel Burstein, Arne J. De Keijzer, 1998 In **BIG DRAGON** Dan Burstein joins with China specialist Arne de Keijzer to offer a comprehensive look at China and its future. They suggest that no other country poses such significant business and political questions for the West and therefore the business world must develop new strategies for dealing with China. The authors present a practical blueprint for business people policy makers and concerned citizens alike for maximising opportunity economic as well as political and minimising any chance of conflict. In dealing with China the book warns that the West will have to revise its elitist view that its principles and mores are superior whether culturally economically or politically. China the authors say will have to be dealt with on its own terms. If the West fails to do so it will have dire consequences for the world. The authors articulate a fresh intelligent and innovative business and political strategy rooted in realistic assessments of where China is coming from and where it is headed. **BIG DRAGON**'s strength lies in its recognition of the possible conflicts but also in the way it clearly identifies the way toward a creation of a new mutuality of economic and political interest between the West and China. **Views & Policies**, 2006 **Asian Security Order** Muthiah Alagappa, 2003 More than a decade has passed since the end of the Cold War but Asia still faces serious security challenges. These include the current security environment in the Korean peninsula across the Taiwan Strait and over Kashmir the danger of nuclear and missile proliferation and the concern with the rising power of China and with American dominance. Indeed some experts see Asia as a dangerous and unstable place. Alagappa disagrees maintaining that Asia is a far more stable predictable and prosperous region than it was in the postindependence period. This volume also takes account of the changed security environment in Asia since September 11 2001. Unlike many areas studies approaches Alagappa's work makes a strong case for taking

regional politics and security dynamics seriously from both theoretical and empirical approaches The first part of this volume develops an analytical framework for the study of order the salience of the different pathways to order is examined in the second part the third investigates the management of specific security issues and the final part discusses the nature of security order in Asia
