

RESPONSIBILITY TO THE SCHOOL COMMUNITY

The professional educator promotes appropriate relationships and effective interactions with members of the school community.

A. The professional educator promotes appropriate and effective relationships with employers by:

1. Establishing personal and professional conduct that is in the best interest of the organization, learning community, school community, and profession.
2. Using property, facilities, resources and resources in accordance with local policies and state and federal laws.
3. Respecting intellectual property rights (e.g., original lesson plans, student work, various authors' publications) when sharing materials and
4. Considering the implications of offering or accepting gifts when professional conduct by someone is an individual is a problem of professional influence in power.

B. The professional educator recognizes the problematic nature of multiple relationships by:

1. Considering the fact that multiple relationships might impact adversely increase the likelihood of harm to students' learning and well-being, or prevent educator effectiveness.
2. Considering the risks and benefits of a professional relationship with someone with whom the educator has a current or past personal connection.
3. Considering the implications and possible ramifications of engaging in a personal relationship with parents/guardians, student teachers, colleagues and supervisors, and
4. Following professional responsibilities to competently, honestly, and ethically in relation to the educator's professional responsibilities to students, their learning, and well-being.

RESPONSIBLE AND ETHICAL USE OF TECHNOLOGY

The professional educator considers the impact of computing, creating, distributing and communicating information through all technologies. The ethical educator is vigilant to ensure appropriate boundaries associated with role, time and place are maintained when using electronic communication.

A. The professional educator uses technology in a responsible manner by:

1. Using social media transparently and privately to purposes of teaching and learning per school and district policy. The professional educator considers the implications of using social media and social communication via technology when used in interactions with students, colleagues and the general public.
2. Sharing content with focus and care of school technology.
3. Encouraging information obtained electronically to enhance and learn.
4. Respecting intellectual property rights, copyright and fair use when assessing, using and disseminating proprietary materials.
5. Understanding and abiding by policy and procedures in the use of technology and communication.
6. Recognizing that some electronic communications are records under the Freedom of Information Act (FOIA) and state public access laws.
7. Considering the implications of sharing legally protected or other sensitive information electronically when the professional is a personal communication tool.
8. Encouraging vigilance in maintaining accurate and professional email profiles and keeping personal and professional lives distinct.

B. The professional educator ensures students' safety and well-being when using technology by:

1. Being vigilant in identifying, addressing and resolving cyber harassment and in accordance with local school, district, state and federal cultural appropriate and legal intervention steps in relation to cyber bullying.
2. Protecting the privacy of students' personal or social media content from a possible risk of harm to the student or others, and
3. Being alertive to and appropriately handling information concerning possible cyber bullying incidents and their potential impact on the student learning environment.

C. The professional educator maintains confidentiality with the use of technology by:

1. Taking appropriate and reasonable measures to maintain confidentiality of privileged information and stored or transmitted educational records.
2. Understanding the intent of Federal Education Rights to Privacy Act (FERPA) and how it applies to sharing student records electronically.
3. Ensuring the rights of third parties, including the right of privacy, are not violated via the use of technology, and
4. Protecting information from being stored with permission that parties through technology.

D. The professional educator promotes the appropriate use of technology in educational settings by:

1. Advocating to equal and equitable access to technology for all students.
2. Promoting the benefits and clarifying the limitations of various educational technologies' applications with colleagues, appropriate school personnel, parents and community members.
3. Promoting technological applications that equal and advance the teaching and learning process, and
4. Practicing and advocating for cybersecurity in private overall, others and the dignity of the network.

MCEE: The Power of a Common Language

The Model Code of Ethics for Educators (MCEE), supported by national education organizations that undergird our profession, was developed by a diverse and representative task force of educational practitioners. The MCEE connects the aspirations of professional ethics with the day-to-day realities of the practicing educator.

The MCEE facilitates a shared understanding of what constitutes ethical best practice and helps ensure that educators are equipped with a framework for ethical decision-making.

The MCEE, which can be adopted, adapted, or endorsed, provides a basis for conversations across the profession about the importance of having a common language rooted in professional ethics. These conversations have power.

The Model Code of Ethics for Educators – Giving the profession a common language to guide professional decision-making.

Established by NASDTEC, the National Council for the Advancement of Education Ethics (NCAEE) consists of practitioners and educational partners that represent the profession. NCAEE's mission is to promote and foster an intentional and thoughtful focus on professional ethics for educators. Its role is to provide national leadership in advancing ethical understanding and practice, while promoting awareness and use of the MCEE.

Founded in 1908, NASDTEC represents professional standards boards, commissions and state departments of education that are responsible for the preparation, licensure, and discipline of educational personnel. Associate members include constituent groups with an interest in the preparation, continuing development, and certification of educational personnel.

More information on NASDTEC and the development of the MCEE may be found at www.nasdtc.net.

OVERVIEW Model Code of Ethics for Educators

2nd Edition

The Model Code of Ethics for Educators (MCEE) serves as a guide for future and current educators as they encounter the complexities of P-12 education. The Code establishes principles for ethical best practices, negotiations, self-reflection and decision-making. The establishment of this professional code of ethics for educators honors the public trust and upholds the dignity of the profession.

WELCOME

There is a movement growing within the greater P-12 and educator preparation educational communities to ensure educators and prospective educators understand how professional decision-making can impact all aspects of the schooling community. This movement focuses on examining and understanding our profession's norms and values as a critical part of the mission of the National Association of State Directors of Teacher Education and Certification (NASDTEC). A professional code of ethics establishes a higher threshold of responsibility than policy, statutes or law. Adhering to the regulations that govern one's employment and licensure – as well as aligning one's professional practice to the Model Code of Ethics for Educators – will reinforce the risks and vulnerabilities inherent in our profession.

Emerging Technologies in Distance Education George Veletsianos,2010 Highlighted are the pedagogical organizational cultural social and economic factors that influence the adoption and integration of emerging technologies in distance education Advice is offered on how educators can launch effective and engaging distance education initiatives in response to technological advancements changing mindsets and economic and organizational pressures

Conference proceedings. ICT for language learning Pixel,2014 Practical Teaching in Emergency Medicine Robert L. Rogers,Amal Mattu,Michael E. Winters,Joseph P. Martinez,Terrence

Mulligan,2012-10-18 Emergency medicine attendings who wish to hone their teaching skills can find a number of books on educational strategies written by physicians from other disciplines However until the publication of the first edition of this book they did not have access to a text written by emergency medicine physicians on methods of teaching that are directly applicable to teaching EM This book was compiled to meet that need Following the introductory section which provides important background information the book s contents are organized into 4 sections that correspond to the core needs and

interests of EM educators Section 2 focuses on practical and ethical considerations of teaching in the ED Section 3 provides strategies for teaching specific groups of learners Section 4 looks at the skills that are characteristic of the best EM educators and Section 5 looks indepthly at specific teaching techniques and strategies Now more than ever this book addresses the needs of physician educators from all over the world New chapters discuss lecturing to an international audience using simulation as a teaching tool how to make journal club work for you and other topics that are of broad interest to medical educators in this field In general each chapter has been updated and reviewed to make sure the content was something that emergency physician educators could use in any country The chapter contributors are widely regarded as leaders in the field of emergency medicine education and faculty development Authors were given free rein to develop their chapters and write in their own style They were asked to present their personal views on how to successfully teach the art of emergency medicine rather than review evidence based guidelines regarding medical education As a result most of the chapters have few references This first person approach to a multi authored textbook yields a compilation that varies in style from chapter to chapter and exposes the reader to a variety of communication techniques
