Collins, 2025-07-22. *Leveraging AI for Human-Centered Learning* provides intentional approaches to the integration of artificial intelligence tools into middle and high school classrooms specifically to foster equity and social-emotional wellbeing. The overlap of AI with today's schools poses pivotal questions about ethics, morality, inclusion, and human learning at a time when students are already reckoning with public health crises, systemic injustice, and other connected challenges. This book helps teachers examine the pros and cons of artificial intelligence as used by both educators and students, as well as its implications for meaningful, culturally responsive teaching and social-emotional learning efforts. Featuring activities, lesson plans, and discussion and writing prompts for use with adolescent learners, each chapter offers concrete pedagogical approaches and instructional innovations that align technological changes with learning objectives in ways that advance rather than replace or neutralize attention to equity and wellbeing. **The Handbook of Midwifery Research** Mary Steen, 2025-09-29. An accessible introduction to the spectrum of research in maternity care, *The Handbook of Midwifery Research*, Second Edition, enables midwives and student midwives to search and make sense of research evidence, write research proposals, and undertake and disseminate research studies. Written in a concise and accessible style, this book includes useful tools and techniques to keep readers up to date with the best available evidence to apply to their own clinical practice. This second edition has been extensively revised to reflect current midwifery research and involves a range of study designs. The book is divided into three parts: understanding research, undertaking research, and publishing research. *The Handbook of Midwifery Research* includes information on different types of reviews and steps to assess them when little information is published on a topic. How to use a search strategy and search terms including the PRISMA guidelines and

flowcharts to show search stages systematically Critical analysis of reported research and integrating results and findings  
Quantitative and qualitative data collection methodologies and mixed methods with specifics on convergent sequential  
explanatory exploratory and hybrid study designs The history and role of ethics in healthcare midwifery and research  
governance The importance of the links between research education policies and clinical practice With case studies learning  
objectives and clear examples throughout The Handbook of Midwifery Research is an essential learning resource for any
