**User's Motivation For Using Facebook** Deo Farrugia, 2015-04-24 Bachelor Thesis from the year 2014 in the subject Computer Science General University of Derby course Computing and Information Technology language English abstract Over the last few years social network websites have become a global phenomenon and brought great social impact across the world Such happenings deserve to be studied and their many aspects investigated thoroughly The aim of this study was to explore the motives and preferences of users on Facebook The data was obtained through an online survey on 383 random participants The result confirmed that Facebook has become a powerful medium of communication Younger

people between ages 14 to 21 are the users who spend more time on Facebook and like to chat with school friends while age 22 and up chat more with old friends and family members A sense of security is shown across all ages gender and education level as in the majority the participants declared that their profile can be only viewed by friends and that they have few unknown friends on Facebook **Fortune , Actor Models and Digital Natives** Tobias Fritsch,2010-12-30 Master s

Thesis from the year 2010 in the subject Sociology Media Art Music grade 1 0 University of Hagen language English abstract This thesis evaluates the role of actor models with regard to the changes in virtual environments The most commonly used actor models the homo economicus and the homo sociologicus as well as the emotional man and several less popular models are compared with regard to their level of explanation for behavior in virtual environment In this context online communities i e gaming communities are observed The research framework and the structural conception of the measurement also are explained in detail A significant share of the input is based onto qualitative interviews with eight different digital natives who share a common computer gaming affinity The analysis includes qualitative interviews with these e athletes concerning their behavior within online communities These interviews contain interesting findings about their motivation especially the difference between virtual and real world social relationships The analysis shows interesting results since the players differentiate in between their role as an e athlete versus their role as a person This leads to a multi causal influence for their behavior which cannot solely be explained with a single influence factor Neither the homo economicus nor the homo sociologicus thus can explain their behavior on its own Therefore this thesis discusses methods to improve the current models in order to adopt behavioral changes through virtual environments A trade off between the most commonly models is given Afterwards the results of the analysis are compared to the statements of the interview partners These interviews indicate a strong personal influence from the environment on the role of a private person Additionally the behavior as an e athlete is also influenced by logical decisions which can be modeled through the homo economicus **The United States Patents Quarterly ,2012 Report of cases relating to patents trade marks copyrights decided by Supreme Court of the United States United States Circuit courts of appeals District courts of the United States United States Court of Customs and Patent Appeals Court of Claims of the United States United States Court of Appeals for the District of Columbia Commissioner of Patents and Patent Office Board of Appeals *Business India ,2010-04 Proceedings of the Asia-Pacific Conference on Library & Information Education & Practice 2011 (A-LIEP 2011)* Fuziah Mohd.
