The New Companion to Urban Design Tridib Banerjee, Anastasia

Loukaitou-Sideris, 2019-06-19 *The New Companion to Urban Design* continues the assemblage of rich and critical ideas about urban form and design that began with the *Companion to Urban Design* Routledge 2011. With chapters from a new set of contributors, this sequel offers a more comparative perspective representing multiple voices and perspectives from the Global South. The essays in this volume are organized in three parts: Part I Comparative Urbanism, Part II Challenges, and Part III Opportunities. Each part contains distinct sections designed to address specific themes and includes a list of annotated suggested further readings at the end of each chapter. Part I Comparative Urbanism examines different variants of urbanism in the Global North and the Global South produced by a new economic order characterized by the mobility of labor, capital, information, and technology. Part II Challenges discusses some of the contemporary challenges that cities of the Global North and the Global South are facing and the possible role of urban design. This part discusses spatial claims and conflicts, challenges generated by urban informality, explosive growth or dramatic shrinkage of the urban settlement, gentrification and displacement, and mimesis, simulacra, and lack of authenticity. Part III Aspirations discusses some normative goals that urban design interventions aspire to bring about in cities of the Global North and the Global South. These include resilience and sustainability, health, conservation, restoration, justice, intelligence, access, and mobility, and arts and culture. *The New Companion to Urban Design* is primarily intended for scholars and graduate students interested in cities and their built environment. It offers an invaluable and up-to-date guide to current thinking across a range of disciplines including urban design, planning, urban studies, and geography.

Marketing the Wilderness Joseph Whitson, 2025-05-20 How outdoor industry marketing promotes an image of the wilderness as an unpeopled haven. *Marketing the Wilderness* analyzes the relationship between the outdoor recreation industry, public lands in the United States, and Indigenous sovereignty and representation in recreational spaces. Combining social media analysis, digital ethnography, and historical research, Joseph Whitson offers nuanced insights into more than a century of the outdoor recreation industry's marketing strategies, unraveling its complicity in settler colonialism. Complicating the narrative of outdoor recreation as a universal good, Whitson introduces the concept of wilderness to describe the physical, legal, and rhetorical production of pristine, empty lands that undergirds the outdoor recreation industry, a process that further disenfranchises Indigenous people from whom these lands were stolen. He demonstrates how companies such as Patagonia and REI align with the mining and drilling industries in their need to remove Indigenous peoples and histories from valuable lands. And he describes the ways Indigenous and decolonial activists are subverting and resisting corporate marketing strategies to introduce new narratives of place. Through the lens of environmental justice activism, *Marketing the Wilderness* reconsiders the ethics of recreational land use, advocating for engagement with issues of cultural representation and appropriation informed by Indigenous perspectives. As he discusses contemporary public land advocacy around places such as Bears Ears National Monument, Whitson focuses on the deeply fraught relationship between the outdoor recreation industry and Indigenous communities, emphasizing the power of the

corporate system and its treatment of land as a commodity under capitalism he shows how these tensions shape the American idea of wilderness and what it means to fight for its preservation Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions
