iconoclastic look at the numbers game of baseball proving why some of the most trusted stats are surprisingly wrong explaining what numbers actually work and exploring what the rise of Big Data means for the future of the sport For decades statistics such as batting average saves recorded and pitching won lost records have been used to measure individual players and teams potential and success But in the past fifteen years a revolutionary new standard of measurement sabermetrics has been embraced by front offices in Major League Baseball and among fantasy baseball enthusiasts But while sabermetrics is recognized as being smarter and more accurate traditionalists including journalists fans and managers stubbornly believe that the old way a combination of outdated numbers and gut instinct is still the best way Baseball they argue should be run by people not by numbers In this informative and provocative book teh renowned ESPN analyst and senior baseball writer demolishes a century s worth of accepted wisdom making the definitive case against the long established view Armed with concrete examples from different eras of baseball history logic a little math and lively commentary he shows how the allegiance to these numbers dating back to the beginning of the professional game is firmly rooted not in accuracy or success but in baseball s irrational adherence to tradition While Law gores sacred cows from clutch performers to RBIs to the infamous save rule he also demystifies sabermetrics explaining what these new numbers really are and why they re vital He also considers the game s future examining how teams are using Data from PhDs to sophisticated statistical databases to build future rosters changes that will transform baseball and all of professional sports *The Hardball Times Baseball Annual 2006* ACTA Publications,2005-11 The Hardball Times Baseball Annual 2006 is a comprehensive analysis of the entire 2005 MLB season from the first pitch to the last out including a breakdown of the playoffs and World Series **The Wall Street Journal** ,2003 *Diamond Dollars* Vince Gennaro,2007 The real money ball *Night Club & Bar* ,2008-07
