Nonclinical Study Contracting and Monitoring William F. Salminen,Joe M. Fowler,James Greenhaw,2012-12-31

Nonclinical Study Contracting and Monitoring A Practical Guide offers a systematic and straightforward handbook for obtaining high quality preclinical Good Laboratory Practice GLP studies. This book is full of real world examples, processes, procedures, useful templates, checklists and sample reports to provide readers with a better understanding of exactly what happens during all stages of a GLP study and the critical aspects of GLP study design and conduct. Designed for both the novice and experienced scientist, this book covers the GLP regulations and how they impact preclinical studies, the differences between GLP and non-GLP and peer reviewed studies, preclinical GLP study design, laboratory selection, contracts and business ethics, how to obtain test material for the study, animal sourcing and release, for study preparation of a draft report and much more. By illustrating the overall big picture and tying it together with the individual steps, this book is an essential resource to help scientists ensure a high quality GLP study that passes both scientific and regulatory scrutiny. Includes both the big picture look at complex processes such as contracting toxicology and safety studies with CROs as well as a detailed account of each individual step. Contains several real world examples of problems in preclinical studies to provide you with an idea of the types of challenges that are routinely encountered and how this book can help you avoid these issues. Provides monitoring checklists through the book that will help you comply with each GLP requirement and maintain compliance throughout the entire process. Both entry level and experienced scientists involved in nonclinical toxicology study monitoring will benefit from the ideas, examples, discussions and strategies presented throughout this book.

Marriage and Family Therapy, Second Edition Linda Metcalf, 2018-12-27. This text provides students of family therapy with a unique opportunity to understand and compare the inner workings of 14 traditional and non-traditional family therapy models. The book demonstrates through innovative guiding templates how the different therapeutic models are applied in an actual family therapy situation. The second edition features a new chapter on neuroscience, new interviews with master therapists on topics such as LGBT families, EMDR and research, and coverage of ethical issues concerning electronic safety and telephonic therapy. Overviews of every model include history, views of change, views of the family and the role of the therapist. Chapters on every model also provide responses to one realistic case study with commentary and analysis by master therapists to illustrate how each one addresses the same scenario. Interviews with master therapists illustrate how each mode of therapy actually works and how therapists do it. Print version of the book includes free searchable digital access to the entire contents. New to the Second Edition: Examines neuroscience and its role in family therapy; New chapter on solution focused narrative therapy with families; Includes enhanced coverage of self care and mindfulness for the therapist; Contains educator resources including instructor's manual, PowerPoint slides and a test bank; Updated references provide current developments in the field of marriage and family therapy; Provides insight on submitting research articles for publication through an interview with a current journal editor; Reports on current revised ethical guidelines from the AAMFT; Key Features: Provides a guiding template for each family therapy model from assessment through termination; Describes a practice oriented approach to
