Evaluating the Knowledge of at Risk High School Students in Ecology Through Alternative Assessment Tina Marie Kopinski, 2007 **Statistics with a Sense of Humor** Fred Pirczak, 2016-09-13 We've added a comprehensive basic math review to this edition. It will get your students off to a good start in statistics. In the worksheets, students obtain answers to humorous riddles if their work is correct. If the answer to a riddle does not make sense, they know to check their work. Easy to coordinate with all major statistics textbooks because each exercise covers only a limited number of statistics. All major topics are included from calculating percentages to conducting a one-way ANOVA. Over 40 humorously illustrated interactive guides give your students solid advice on study skills covering everything from how to get the most out of a statistics textbook to how to work with a tutor. The 64-page instructor's answer key shows all the steps in the solutions for the computational problems. This key makes it easy for you to start using the workbook right away.
