Promotion in the Early Years Hannah Brewer, Mary Renck Jalongo, 2018-06-19 This book focuses on improving well being among young children It provides a theoretical base explaining why physical activity is important and offers practical strategies for increasing health and well being in early childhood settings It takes ancient wisdom on the mind and body connection applies it to the youngest children and supports it with current empirical and international evidence all with an

eye toward improving wellness across the lifespan. The many topics discussed in the book include children's motor skills, movement, interaction, physical literacy, the use of video games, dog ownership, developmental delays, as well as strategies to improve physical activities in the classroom and broader contexts. In recent years, children's health has become a priority worldwide. Topics such as screen time, sedentary behavior, and childhood obesity have become important issues everywhere in the news, in schools, in community and commercials settings, and among health care providers. Limiting sedentary behavior, increasing physical activity, and maintaining a nutritious diet are three fundamental needs during early childhood. Preschool years are a time when children begin to explore the world around them and develop more vivid understandings of their surroundings. As this book shows, the early years may be the best time to teach wellness concepts and assist young children in establishing healthy lifestyle habits.

Creative Activities for the Early Years Stella Skinner, 2007-02-22 An excellent resource for all those working with young children, jam packed with exciting, inspirational activities that encourage young children to nurture their creativity and imagination while helping practitioners to facilitate what children do naturally. It is a book that celebrates and encourages original thought and action to support learning through exploration and investigation, recognising that creativity is about representing one's own image and not reproducing someone else's.
