*The Dark Side of Speech* Carlo Penco,2024-10-08

What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012 2022 the book attempts to answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of conspiracy

theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press 4 The fourth part gives some emergency tools for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks [This Is Not an Atlas](#) orangotango,2018-11-05 This Is Not an Atlas gathers more than 40 counter cartographies from all over the world This collection shows how maps are created and transformed as a part of political struggle for critical research or in art and education from indigenous territories in the Amazon to the anti eviction movement in San Francisco from defending commons in Mexico to mapping refugee camps with balloons in Lebanon from slums in Nairobi to squats in Berlin from supporting communities in the Philippines to reporting sexual harassment in Cairo This Is Not an Atlas seeks to inspire to document the underrepresented and to be a useful companion when becoming a counter cartographer yourself [\*\*The United States Patents Quarterly\*\*](#),2012-04 Report of cases relating to patents trade marks copyrights decided by Supreme Court of the United States United States Circuit courts of appeals District courts of the United States United States Court of Customs and Patent Appeals Court of Claims of the United States United States Court of Appeals for the District of Columbia Commissioner of Patents and Patent Office Board of Appeals [\*Brigham Young University Law Review\*](#) ,2007 [\*\*War and Conflict Communication\*\*](#) Philip M.
