Through a City Archway Desmond Chapman-Huston, Wellesley William Desmond Mountjoy Chapman HUSTON (and CRIPPS (Ernest Charles)), Ernest Charles Cripps, 1954      *Through a City Archway* Desmond Chapman-Huston, Ernest Charles Cripps, 1954      The Pharmaceutical Industry Lesley Richmond, Julie Stevenson, 2017-10-05 The pharmaceutical industry has changed beyond all recognition in the past 100 years The modern industry is constantly in the news as new breakthroughs in medical treatment are announced often provoking ethical and social debates about the implications of new technologies This volume facilitates the study of the industry by providing information on the present location of pharmaceutical archives The core of the book consists of a business by business guide to the industry's records Each entry includes a brief history of the company a summary of its surviving archives and a bibliography of related publications Similar entries exist for trade associations and schools of pharmacy associated with the industry and there are two appendices listing small collections of records held and relevant public records The historical compendium is supplemented by three introductory essays written by leading academics in the field outlining the history of the industry and describing the nature and uses of the archival records which it has created These essays are supplemented by a select chronology of pharmaceutical legislation and a select bibliography of histories relating to the pharmaceutical industry in general A users guide helps readers understand how the business entries were constructed and is supplemented by a glossary of terms used in this book As such this book will no doubt prove an invaluable resource to researchers undertaking comparative studies of the pharmaceutical industry the history of medicine and the retailing of medical drugs      *The History of Pharmacy* Gregory Higby, Elaine C. Stroud, 2018-12-12 Originally published in 1995 The History of Pharmacy is a critical bibliography of selected information on the history of pharmacy The book is designed to guide students and academics through the history of science and technology Topics range from medicine chemical technology and the economics and business of pharmacy to pharmacy's influence in the arts The bibliography includes an exhaustive selection of primary and secondary sources and is arranged chronologically This book will be of interest to those researching in the area of the history of science and technology and will appeal to students and academic researchers alike      **Science and Technology in the Industrial Revolution** Albert

Edward Musson, Eric Robinson, 1989 First Published in 1969 Routledge is an imprint of Taylor Francis an informal company

Through a City Archway Desmond Chapman-Huston, Ernest Charles Cripps, 1954      **Veterinary Medicine** Pamela Hunter, 2016-12-05 Veterinary medicine has long been recognized as one of the more neglected areas of medical history One of the main stumbling blocks to research is the lack of comprehensive information regarding the survival and availability of primary source material Veterinary Medicine A Guide to Historical Sources redresses these issues for the first time offering researchers an unparalleled tool with which to approach the subject The book opens with a brief history of veterinary medicine and the veterinary profession from the fourteenth to the beginning of the twenty first centuries identifying the key

dates and events that shaped their development There then follows a chapter on the nature and uses of the records covered by the book outlining the types of records found the type of information they contain and their likely uses by different types of researcher A brief user's guide then explains how to use the book After these preliminary sections comes the main body of the book the lists of records It is here that the various practices and institutions covered by the book are listed together with the types of records they hold the dates they cover and where they are kept A short biographical history is also included with each entry where appropriate Taken as a whole this volume will prove to be an invaluable aid for any scholar researching the history of veterinary medicine in Britain

Chemistry, Society and Environment Colin Archibald Russell, Royal Society of Chemistry (Great Britain), 2000 There have been several attempts to write the history of Britain's chemical industry as a whole and countless others concentrating on individual companies Some have looked at the technical aspects of the industry whilst others have addressed economic issues Few have however attempted to analyse the effects of the chemical industry on society in general The current environmental crisis can only be fully understood in the light of its history This is the first such book to look critically at the whole development of industrial chemistry in the UK in the context of its effects on the environment No one from industry government or academia can afford to be unaware of the historical roots of our present dilemma Industrial chemists can take heart from the realization that their predecessors were remarkably aware of the problems and often found satisfactory solutions Industrial chemistry has traditionally been seen as the great polluter Without any attempts at whitewash this book puts the record straight From academic chemist to industrialist to politician

**Chemistry Society and Environment A New History of the British Chemical Industry** will be of relevance to all those concerned with the social and environmental impact of the chemical industry

**Pharmacy and Professionalization in the British Empire, 1780-1970** Stuart Anderson, 2021-10-22 Offering a valuable resource for medical and other historians this book explores the processes by which pharmacy in Britain and its colonies separated from medicine and made the transition from trade to profession during the nineteenth and twentieth centuries When the Pharmaceutical Society of Great Britain was founded in 1841 its founders considered pharmacy to be a branch of medicine However the 1852 Pharmacy Act made the exclusion of pharmacists from the medical profession inevitable and in 1864 the General Medical Council decided that pharmacy legislation was best left to pharmacists themselves Yet across the Empire pharmacy struggled to establish itself as an autonomous profession with doctors in many colonies reluctant to surrender control over pharmacy In this book the author traces the professionalization of pharmacy by exploring issues including collective action by pharmacists the role of the state the passage of legislation the extension of education and its separation from medicine The author considers the extent to which the British model of pharmacy shaped pharmacy in the Empire exploring the situation in the Divisions of Empire where the 1914 British Pharmacopoeia applied Canada the West Indies the Mediterranean colonies the colonies in West and South Africa India and the Eastern colonies Australia New Zealand and the Western Pacific Islands This insightful and wide ranging

book offers a unique history of British pharmaceutical policy and practice within the colonial world and provides a firm foundation for further studies in this under researched aspect of the history of medicine     *The Medical Trade Catalogue in Britain, 1870-1914* Claire L. Jones,2016-08-05 By the late nineteenth century advances in medical knowledge technology and pharmaceuticals led to the development of a thriving commercial industry The medical trade catalogue became one of the most important means of promoting the latest tools and techniques to practitioners Drawing on over 400 catalogues produced between 1870 and 1914 Jones presents a study of the changing nature of medical professionalism She examines the use of the catalogue in connecting the previously separate worlds of medicine and commerce and discusses its importance to the study of print history more widely     *Victorian Quakers* Elizabeth Allo Isichei,1970     **Bulletin of the Public Affairs Information Service** Public Affairs Information Service,1955     **The Business Archives Council Newsletter** ,1992     *The Best Books for Academic Libraries: Medicine* ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers     *Pharmaceutical Correspondence of Jonathan Pereira to Jacob Bell, London 1844 to 1853* Jonathan Pereira,Cecil Pershing Cloughly,1963     Scott of Amwell David Perman,2001 John Scott 1731 1783 was a remarkable man A Quaker who built a shell grotto and became the outstanding turnpike trustee of his age he would have wished to excel as a poet He wrote poetry in the pastoral tradition and vigorously defended that tradition against his close friend Samuel Johnson He also attacked Johnson for his attitude towards the rebellious American colonies Yet Dr Johnson visited Scott s grotto said he loved the man and wished to write his biography but died before he could put pen to paper     In Search of a Cure Miles Weatherall,1990 This book describes the important events in the discovery growth and development of therapeutic medicines and the pharmaceutical industry that supplies them     *Catalogue ...* Francis Edwards,Francis Edwards (Firm),2000     Rise to be a People Lamont Dominick Thomas,1986 Based on prodigious transatlantic research Thomas s study presents Cuffe 1759 1817 the black Quaker ship captain merchant and African colonizer as the most widely publicized and admired black American of his day Thomas s Cuffe combined entrepreneurship with philanthropy in promoting education and emigration to Africa and in building a network of antislavery supporters Thomas develops a fuller Cuffe than is available elsewhere and he moves the discussion of Cuffe s significance away from emigration and missionary endeavors alone but he is uncritical in ascribing motives to his subject Still the book is useful for its treatment of the links between free black and Quaker reformers and for its description of commerce     Economics Selections: an International Bibliography: Cumulative Bibliography ,1965
