A Tiny Spot on the Earth Piet Rooy, 2025-10-01 In this survey of the Dutch political culture of the nineteenth and twentieth centuries Piet de Rooy reveals that the polder model often used to describe economic and social policymaking based on consensus is a myth Instead modern political culture in the Dutch Low Countries began with a revolution and is rife with rivalries among political and ideological factions De Rooy argues that because of its extremely open economy the country is vulnerable to external political cultural and economic pressures and Dutch politics is a balancing act between profiting from international developments and maintaining sovereignty The sudden rise of populism

and Euroscepticism at the turn of the millennium then indicated a loss of this balance Shining new light on the political culture of the Netherlands this book provides insights into the polder model and the principles of pillarization in Dutch society The Dutch edition of this book *Ons stipje op de wereldkaart* was awarded the Prinsjesboekenprijs for the best book on Dutch national politics in 2014 Survey of the Dutch political culture of the nineteenth and twentieth centuries **Library of Congress Catalog** Library of Congress,1970 A cumulative list of works represented by Library of Congress printed cards
