Andrew James Nathan, Bruce Gilley

Tiger On The Brink Jiang Zemin And Chinas New Elite:

Tiger on the Brink Bruce Gilley, 1998 A chronicle of the political rise of Chinese leader Jiang Zemin follows his career from his days in the Communist underground through his emergence as a central leader after the 1989 Tiananmen Massacre discussing his influence on current Chinese politics UP Tiger on the Brink Bruce Gilley, 1998-10-01 This pathbreaking book is the first full length study of the rise to power of Jiang Zemin now the central figure in China s third generation of leaders Tracing Jiang s beginnings as a student in the underground Communist movement in Shanghai through his appointment by Deng Xiaoping as party general secretary and his sudden elevation to central authority in the wake of the 1989 Tiananmen Massacre in Beijing Bruce Gilley offers a fascinating and highly readable look at how Jiang Zemin has secured his position as one of the world s most powerful figures Gilley follows Jiang s life and career from his early years as the adopted son of a revolutionary martyr through his training in Western science and engineering to his emergence as what many believed would be an interim figurehead in the wake of Tiananmen Gilley shows how Jiang instead persisted as China s key leader following the death of Deng Xiaoping While he shared the concerns of the last of the Party elders including their idealistic views of Chinese socialism he also accommodated the younger generation of economic reformers who have helped China to achieve staggering growth in its domestic economy and foreign trade Gilley s analysis of the careful and methodical transition of power from Deng to Jiang during the 1990s is a remarkable study in complexity and contrast clearly illustrating Jiang s ability to either placate his allies and adversaries or ruthlessly exploit their weaknesses Based on first hand interviews and primary documents as well as a variety of mainland Chinese and international media sources Tiger on the Brink is an unprecedented and immensely revealing look into the highest echelons of Chinese politics on the eve of the twenty first century and will be of interest to anyone concerned with the world s most populous nation and its newest emerging superpower **Law and Justice in China's New Marketplace** Ronald C. Keith, 2001-01-11 Law and Justice in China s New Marketplace provides the first comprehensive multidisciplinary analysis of the jurisprudence and related law underlying the contemporary Chinese transition to the socialist market economy New pluralized jurisprudence has moved beyond Marxist class analysis to consider a new balance of values relating to economic efficiency and social justice in the marketplace and yet the interior debates and perspectives concerning these values are virtually unknown in the Western scholarly literature By analysing the changing Chinese approach in law to the adjustment of social interests in the context of profound economic change Law and Justice in China s New Marketplace provides a unique reference tool It outlines the new vocabulary of market jurisprudence and law and examines new legal thinking on rights protection with reference to widely ranging and often hot internal debate over human rights property law and procedural or judicial justice Modernization and Revolution in China June Grasso, Jay Corrin, Michael Kort, 2024-03-14 Extensively revised and fully updated in this sixth edition this popular textbook conveys the drama of China s struggle to modernize against the backdrop of a proud and difficult history

Featuring a new analysis of the issues facing China's fifth generation of leaders it explores prominent developments including China's relations with its neighbors and the United States the humanitarian crises in Tibet and Xinjiang and the progression of Xi Jinping Incorporating new analytical summaries in each chapter and updated suggested readings this new edition covers The breakdown of imperial China in the face of Japanese and Western encroachments The struggles between the ideologies and armies of Chiang Kai shek and Mao Zedong Mao Zedong's Great Leap Forward and Cultural Revolution Deng Xiaoping's reforms and the resulting dismantling of socialism and economic growth China's position as a world superpower and Xi Jinping's leadership The Covid 19 pandemic Spanning the years from China's defeat in the Opium Wars to its current status as a world superpower the sixth edition of *Modernization and Revolution in China* is an essential textbook for courses on modern Chinese history Chinese politics and modern East Asia

Elite Dualism and Leadership Selection in China Xiaowei Zang, 2004-03-01 Who are the top political leaders in China What are the major criteria in elite recruitment How is job promotion in high politics determined By studying over one and a half thousand top political Chinese leaders this book seeks to answer these questions and as a result defines how Chinese leadership is stratified Unlike existing research on Chinese leaders *Elite Dualism and Leadership Selection in China* draws on extensive statistical information and data analysis It evidences how political development in the reform era has led to the division of labour between the Chinese Communist Party CCP and the government in governance leading to two distinctive career paths in the two political systems respectively Key issues examined include the different criteria the CCP and the government demand the requirements for promotion the effect of university education on the rate of mobility the different affiliations of the two groups the role of cooptation in leadership selection Many of the elites discussed are still leading figures in China making this book the most up to date and extensive biographical data set in elite studies This allows for a meaningful analysis of elite behaviour in China for the first time in Chinese Studies This book will be useful to both students of Chinese studies and comparative politics and will also interest researchers political commentators statesmen and China watchers

China's Quest for Sporting Mega-Events Marcus P. Chu, 2020-07-14 This book vividly elucidates the inseparable nature between politics and sport in China The holding of sporting mega events is viewed by the Chinese authorities as a prominent way to push forward the Reform and Opening up arouse the patriotism among the public and display national resurgence in the world Chinese cities thus have keenly quested for the Olympics the Asian Games and the World University Games since the 1980s Theoretically the President the Premier and the central government should provide all out support so boosting the Chinese cities odds of success The reality yet shows that their attitude towards the bids vary from case to case Through reviewing the 20 bidding cases this book aims to demystify the reasons behind The findings provide an in depth account of 1 how domestic and international political factors determine the state leaders blessing and silence as well as the central government's backing indifference and opposition and 2 how the bids for the sporting mega events are used to serve the broader political goals of

the Chinese authorities at home and abroad. Additionally they shed light on the political strategies to boost the Chinese cities chance of success and the political reasons for their win loss and discontinuation in the bidding contests. The book will be a valuable resource for researches interested in the domestic politics and international relations of China. Civil-Military Change in China Elites, Institutes, and Ideas after the 16th Party Congress Larry Wortzel, In November 2002 the Chinese Communist Party held its 16th Congress and formally initiated a sweeping turnover of senior leaders in both the Party and the People's Liberation Army PLA. The meeting heralded not merely a new set of personalities in positions of political and military power but also the emergence of a new generation of leaders. Who are these individuals and what does their rise mean for the future of China and its military? The group of China specialists who have written this book have applied their research talents, intelligence and hands on experience to clarify and explain the most important issues of the day in China. China obviously matters to the United States because of its size, its spectacular patterns of growth, its profound problems linked to rapid growth and its military intentions. These specialists have avoided the diseases of bias, demagoguery, predispositions and showmanship which infect so many of the analyses of China. Rather they have examined the facts and the trends to explain the divisions and cohesions in the Chinese leadership and their potential significance to the United States and the rest of the world. These annual conferences have a long continuity stretching back to the early 1990s. Hence there is a common database for the books produced each year. The writers revisit major problems in China's development particularly in the military sphere. They also examine how Chinese policies have evolved over the years and how important the United States has been in influencing China's strategy. What for instance will the emerging leadership with its factious differences do about Taiwan and North Korea? The conference took place at the Carlisle Barracks in September 19-21, 2003 and was sponsored by the American Enterprise Institute, the Heritage Foundation and the Army War College. The exchanges were frank, the atmosphere was filled with camaraderie and tension. **Chinese Economic Studies**, 2001 *The Chinese Economy*, 2001 *Issues & Studies*, 2005 中国研究, 2002 The Journal of Parliamentary Information, 1999 **SAIS Review**, 2003 **Bibliographic Index**, 1999 China's New Rulers Andrew Nathan, Bruce Gilley, 2002. Based on internal Chinese Communist Party documents smuggled out of the country, this is a controversial look at the leaders who will shape the future of Chinese policy.
