## Time To Kill The Soldiers Experience Of War In The West:

Advanced Land Warfare Mikael Weissmann,Niklas Nilsson,2023-04-13 This book explores the evolving role of land forces paying particular attention to the changes that have taken place in the art of commanding and executing combat as well as the role of rapid technological innovation and information dissemination in shaping warfare Congscription in Britain

1939-1964 Roger Broad,2006 Compulsory military service in Britain can be traced back to Anglo Saxon times but it was only in the twentieth century that it became universal Conscription occurred during both world wars with a total of eight million men in total being conscripted into the army navy and air forces and after the end of the Second World War compulsory service continued for another eighteen years to meet overseas commitments and under the threat of the Cold War

Congscription in Britain 1939 1963 outlines the historical record of conscription from the fyrd of the Dark Ages through to Nelson's day and up to and including the First World War The book goes on to concentrate on conscription during the Second World War and National Service which continued in the decades afterwards The strategic and political considerations that governed British military recruitment in the period 1939 1963 are described and analyzed Individual experiences in the services are examined putting human flesh on the strategic and political skeleton The book looks at aspects of conscription including the demands made on the services how officers and men were selected and trained and how discipline was imposed The years following the Second World War are also investigated considering the effect of twenty four years continuous conscription on the services themselves on women's rights on attitudes towards authority and patriotism on race issues and on the breakout of individualism in the 1960s

Sport and the Military Tony Mason,Eliza Riedi,2010-11-04 On battleships behind the trenches of the Western Front and in the midst of the Desert War British servicemen and women have played sport in the least promising circumstances When 400 soldiers were asked in Burma in 1946 what they liked about the Army 108 put sport in first place well ahead of comradeship and leave and this book explores the fascinating history of organised sport in the life of officers and other ranks of all three British services from 1880 1960 Drawing on a wide range of sources this book examines how organised sport developed in the Victorian army and navy became the focus of criticism for Edwardian army reformers and was officially adopted during the Great War to boost morale and esprit de corps It shows how service sport adapted to the influx of professional sportsmen especially footballers during the Second World War and the National Service years

**The Great World War 1914-1945: 1. Lightning Strikes Twice** Peter Liddle,John Bourne,Ian Whitehead,2015-02-19 Comparing and contrasting the World Wars The Journal of Military History ,2005 Time to Kill Paul Addison,Angus Calder,1997 In the 50 years since the end of the Second World War much has been written about the men at the top but little attention has been given to what soldiering was like for the dog face and squaddy the NCO's and junior officers Redressing the balance this original and powerful book explores the conditions in which the soldiers of many different countries lived and died as well as their hopes and fears and their experience of battle John Erickson John Keegan

Theodore Wilson and Omer Bartov are among the distinguished cast of historians whose subjects range from GIs in Europe to Indian troops in North Africa and from the comic overtones of Dad's Army in Britain to the grim earnest of the war on the eastern front where Russian women fought as full combatants **A Stroke of Unbelievable Luck** Isaac Fadoyebo, 1999

*Battle and Culture* Tarak Karim Barkawi, 2001 **Brave Soldiers, Proud Regiments** Allen Andrews, 1997 Designed for the general reader as well as the student of Canadian history *Brave Soldiers* *Proud Regiments* recounts the colourful story of our military's past through the personalities and accomplishments of its soldiers. The twenty six chapters commence with the 1759 Battle of the Plains of Abraham and the stirring story of Loyalist soldiers during the American Revolution. It presents the accomplishments of the 19th century figures Sir Isaac Brock, Light Brigade hero Alexander Roberts Dunn, V C Sir John Inglis whose defence of Lucknow's Residency became a Victorian epic and British officers Garnet Wolseley and Frederick Middleton who led expeditions against Riel. Great War sketches include the moving story of the Princess Patricia's Canadian Light Infantry and an account of Sir Julian Byng who led the Canadian Corps to victory at Vimy Ridge. World War Two stories include portraits of senior commanders Andy McNaughton and Harry Crerar as the D Day Dodgers. Canadians who fought in Italy. Our country's modern role as a peacekeeper is examined in accounts of Rocky's John Meredith, Rockingham's Special Force in Korea and Lewis MacKenzie's novel role as a UN general commanding Sector Sarajevo in former Yugoslavia. Closing with an account of the new airborne companies *Brave Soldiers* *Proud Regiments* presents a superb account of two centuries of Canada's military heritage **Total War and Historical Change** Arthur Marwick, Wendy Simpson, Clive Emsley, 2001

What do we mean by social and cultural change? What is the nature of total war? How do wars come to happen? What are the consequences of war? In exploring these four key themes this collection provides a major resource for the study of 20th century war and defence in European history and exemplifies different historical methods and approaches. The authors are drawn from a range of disciplines including those of economics, literature and the arts as well as military, social and political history and together they raise some of the most significant problems and debates in the study of history. The essays range from standard seminal works by Stanley Hoffmann, Arno J. Mayer and Charles Maier to more recent contributions by Richard Bessell, Mark Harrison and Hew Strachan.

**The Oxford Encyclopedia of Women in World History** Bonnie G. Smith, 2008-01-23 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social or demographic change in which women have not been involved and by which their lives have not been

affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

**Black and White in Colour** Vivian Bickford-Smith, Richard Mendelsohn, 2007 Black and White in colour considers how the African past has been represented in a wide range of historical films It provides extensive coverage of both place and time and deals with issues that have been prominent in the written history of Africa

*Native Sons* Gregory Mann, 2006-07-19 For much of the twentieth century France recruited colonial subjects from sub Saharan Africa to serve in its military sending West African soldiers to fight its battles in Europe Southeast Asia and North Africa In this exemplary contribution to the new imperial history Gregory Mann argues that this shared military experience between France and Africa was fundamental not only to their colonial relationship but also to the reconfiguration of that relationship in the postcolonial era Mann explains that in the early twenty first century among Africans in France and Africa and particularly in Mali where Mann conducted his research the belief that France has not adequately recognized and compensated the African veterans of its wars is widely held and frequently invoked It continues to animate the political relationship between France and Africa especially debates about African immigration to France Focusing on the period between World War I and 1968 Mann draws on archival research and extensive interviews with surviving Malian veterans of French wars to explore the experiences of the African soldiers He describes the effects their long absences and infrequent homecomings had on these men and their communities he considers the veterans status within contemporary Malian society and he examines their efforts to claim recognition and pensions from France Mann contends that Mali is as much a postslavery society as it is a postcolonial one and that specific ideas about reciprocity mutual obligation and uneven exchange that had developed during the era of slavery remain influential today informing Malians conviction that France owes them a blood debt for the military service of African soldiers in French wars

**Enemy Lines** Margaret Trawick, 2007-04-11 Enemy Lines captures the extraordinary story of boys and girls coming of age during a civil war Margaret Trawick lived and worked in Batticaloa in Eastern Sri Lanka where thousands of youth have been

recruited into the Sri Lankan armed resistance movement known as the Tamil Tigers LTTE This compelling account of her experiences is a powerful exploration of how children respond to the presence of war in their world and of how adults have responded to the presence of children in this conflict What emerges from her beautifully written narrative which includes many voices of the children and young adults who have joined the LTTE is a picture of a region that has been profoundly affected by the horrors of war but where war is not the only thread in the fabric of people s lives these Sri Lankans fight and prepare for combat but they also play love celebrate and dream Enemy Lines the most extensive ethnographic account of the Tamil Tigers available advances a striking argument about the nature of war itself as it brings alive a region where childhood warfare and play have become commingled in a world of continual uncertainty     *Advocate of Peace and Universal Brotherhood ,1893*     *Western Journal of Education ,1917*
