United States and India can or should develop ever closer ties as a way of countering China's desire to be the dominant power in the broader Asian region. Fateful Triangle argues that history shows such a partnership is neither inevitable nor impossible. A desire to offset China brought the two countries closer together in the past and could do so again. A look to history however also shows that shared perceptions of an external threat from China are necessary but insufficient to bring India and the United States into a close and sustained alignment that requires agreement on the nature and urgency of the threat as well as how to approach the threat strategically, economically and ideologically. With its long view, Fateful Triangle offers insights for both present and future policymakers as they tackle a fateful and evolving triangle that has regional and global implications.
