Of Bridges Thomas Harrison, 2023-06-05 Offers a philosophical history of bridges both literal bridges and their symbolic counterparts and the acts of cultural connection they embody Always wrote Philip Larkin it is by bridges that we live Bridges represent our aspirations to connect to soar across divides And it is the unfinished business of these aspirations that makes bridges such stirring sights especially when they are marvels of ingenuity A rich compendium of myths superstitions and literary and ideological figurations Of Bridges organizes a poetic and philosophical history of bridges into nine thematic clusters Leaping in lucid prose between distant times and places Thomas Harrison questions why bridges are built and where they lead He probes links forged by religion between life's transience and eternity as well as the consolidating ties of music illustrated by the case of the blues He investigates bridges in poetry as flash points in war and the megabridges of our globalized world He illuminates real and symbolic crossings facing migrants each day and the affective connections that make persons and societies cohere In readings of literature film philosophy and art Harrison engages in a profound reflection on how bridges form and transform cultural communities Of Bridges is a mesmerizing vertiginous tale of bridges both visible and invisible both lived and imagined

Nietzsche, Tension, and the Tragic Disposition Matthew Tones, 2014-10-27 Nietzsche Tension and the Tragic Disposition exposes the role of tension in Nietzsche's recovery in his mature thought of the Greek tragic disposition Matthew Tones examines the ontological structure of the tragic disposition presented in Nietzsche's earliest work on the Greeks and then explores its presence in points of tension in the more mature concerns with nobility In pursuing this ontological foundation Tones builds upon the centrality of a naturalist argument derived from the influence of the pre Platonic Greeks He examines the ontological aspect of the tragic disposition identified in Nietzsche's earliest interpretations of Greek physis and in the inherent tensions of the chthonic present in this hyleomorphic foundation to

demonstrate the importance of tension to Nietzsche's recovery of a new nobility. By bringing to light the functional importance of tension in the ontological for the Greeks the book identifies varying points of tension present in different aspects of Nietzsche's later work. Once these aspects are elaborated the evolving influence of tension is shown to play a central role in the re-emergence of the noble who possesses the tragic disposition. With solid argumentation linking Nietzsche with the pre-Platonic Greek tradition Nietzsche's Tension and the Tragic Disposition brings new insights to studies of metaphysics, ontology, naturalism and German continental and Greek philosophies.

Chinese Thought in a

Multi-cultural World YUE Daiyun, 2022-12-30 Reflecting on the clash of civilizations as its point of departure this book is based on a series of sixteen of the author's interconnected thematically focused lectures and calls for new perspectives to resist imperialistic homogeneity. Situated within a neo-humanist context the book applies interactive cognition from an Asian perspective within which China can be perceived as an essential other making it highly relevant in the quest for global solutions to the many grave issues facing humankind today. The author critiques American, European and Chinese points of view highlighting the significance of difference and the necessity of dialogue before ultimately rethinking the nature of world literature and putting forward interactive cognition as a means of reconciliation between cultures. Chinese culture as a frame of reference endowed with traditions of harmony without homogeneity may help to alleviate global cultural confrontation and even reconstruct the understanding of human civilization. The book will be essential reading for scholars and students of Comparative Literature, Chinese Studies and all those who are interested in cross-cultural communication and Chinese culture in general.
