Time And Eternity Exploring Gods Relationship To Time:

Time and Eternity William Lane Craig, 2001-03-01 This remarkable work offers an analytical exploration of the nature of divine eternity and God's relationship to time

The Doctrine of the Covenant of Redemption According to John Gill (1697-1771) Wang Yong Lee, 2025-02-11 What is the doctrine of the covenant of redemption Why does John Gill 1697-1771 an English Baptist pastor and theologian regard this doctrine as the kernel in his systematic theology This book explicates how core theological doctrines in the Bible e.g. the doctrine of God the Trinity Christology and soteriology are integrated in the doctrine of the covenant of redemption from the biblical and theological perspective of John Gill From his long pastoral experience and over fifty years of rich writing Gill demonstrates that a careful investigation of the Bible and of God the Trinity makes him love the reality of the covenant of redemption in eternity which is ultimately revealed by the gospel of Jesus Christ Gill sees those who are in the gospel of Jesus Christ as the ones through whom the eternal reality of the covenant of redemption is manifested to the saved Gill also encourages those who are in Christ to see the eternal reality of the covenant of redemption revealed by the gospel of Jesus Christ

The One Creator God in Thomas Aquinas and Contemporary Theology Michael J. Dodds, OP, 2020-08-21 This book provides a fundamental introduction to Aquinas's theology of the One Creator God Aimed at making that thought accessible to contemporary audiences it gives a basic explanation of his theology while showing its compatibility with contemporary science and its relevance to current theological issues Opening with a brief account of Aquinas's life it then describes the purpose and nature of the *Summa Theologica* and gives a short review of current varieties of Thomism Without neglecting other works it then focuses primarily on the discussion of the One God in the first part of the *Summa Theologica* God's transcendence and immanence is a recurrent theme in that discussion Evidence of God's immanent causality in the natural world grounds Aquinas's five arguments for the existence of God the Five Ways which then open onto God's transcendence The subsequent discussion of the divine attributes builds on the modes of God's causality established in the Five Ways It also shows the need for a language of analogy to preserve God's transcendence and prevent us from reducing God to the level of creatures even as qualities such as goodness and love which we first know from creatures are applied to God The discussion of God's providence and governance establishes that the transcendent Creator God is most intimately present in creation God acts in all creatures in a way that does not diminish their proper causality but is rather its source As there is no contradiction between God's transcendence and immanence so there is no competition between the primary causality of God and the secondary causality of creatures Empirical science which is limited by its method to the secondary causality of creatures is shown to be compatible with the broader discipline of theology which also embraces the primary causality of the Creator

Remythologizing Theology Kevin J. Vanhoozer, 2010-01-14 Kevin J. Vanhoozer develops a new vision of Christian theism by establishing divine communicative action as the formal and material principle of theology His contribution revisits long

standing controversies such as the relations of God's sovereignty to human freedom, time to eternity and suffering to love

Toward a Priestly Christology Adriani Milli Rodrigues, 2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood. This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology. However, there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology. The book makes a contribution to this discussion by engaging firstly with the main models of Christ's priesthood in Christian theology and then with a theological reading of the letter to the Hebrews. In both steps, the author conceptually articulates the priesthood in terms of need, agent, actions and goal. Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology, especially noticing how assumptions on time and space impact the internal logic of Christ's priesthood. By using existing models of this priesthood as heuristic tools for systematic thinking, the work attempts to push Christian theology toward a more dynamic understanding of Christ's priesthood, especially regarding the relationship between the ascended Christ and our Christian life. **From**

Eternity to Time Aino Mäkilä, 2007 This study examines different conceptions of time in Daniel Defoe's 1660-1731 novels. The temporal aspects of the novels are surveyed, taking into account the historical situation of the novel as a genre and contemporary conceptions of time. The modernisation process of the Western world serves as a wider context of the study, as present research indicates that Defoe's novels exemplify a multilayered shift from pre-modern Western conceptions of time to those of the modern age. The author also explores gendered time and economic and cultural values of time in Defoe's novels. The book contributes a fresh analysis of Defoe's novels and demonstrates the crucial relation between historical/cultural conceptions of time and the historically changing genre of the novel. **Jesus** Leonard Sweet, Frank Viola, 2012-10-01

In this innovative book, Sweet and Viola begin before time, in the Triune God, and tell the complete interconnected story of Jesus from Genesis to Revelation. Jesus: A Theography is the first book ever written to combine historical Jesus studies with biblical theology, crafting together one breathtaking saga that tells the Jesus story in both Old and New Testaments.
