**Tin Hats to Composite Helmets** Martin J. Brayley, 2008-11-15 Tin Hats to Composite Helmets A Collector's Guide brings together in a single volume the primary protective helmets of the world's military forces from 1915 to modern times. It traces the development of the helmet from the Great War French Adrian through to the current American ACH composite helmet. Included in this work is a selection of the helmet types worn by infantry, armored vehicle crews, paratroopers, and military motorcyclists, as well as civil defense forces. Principal nations covered include France, Germany, Italy, Great Britain, Russia, United States, and many other countries including Argentina, Czechoslovakia, Belgium, Holland, Hungary, Poland, Iraq, Israel, Japan, South Africa, and Yugoslavia. With around 700 images of a vast range of helmets, this is an essential work for collectors and historians alike.

*War on Land* Britannica Educational Publishing, 2011-11-01 Long before they took to the sea and air, warring factions engaged in land-based conflicts that involved close-range combat with rudimentary defenses and weapons. As civilizations have advanced, so too have their military strategies, tactics, and weaponry. Eventually, this led to the development of sophisticated land fortifications, arms, artillery, and missile systems in use today by ground troops. This insightful volume examines the evolution of warfare on land around the world, as well as the impact of new technologies on the nature of war.

*Royal Navy Uniforms 1930-1945* Martin J. Brayley, 2014-11-30 *Royal Navy Uniforms 1930-1945* uses over 400 illustrations, both period images and new colour photographs of original items, to show the clothing of both Officers and Ratings in World War II and during the years leading up to it, when Naval uniforms underwent significant modernization. The illustrations are supported by detailed text describing the development and use of Naval clothing of the time. Its contents include Officers' clothing and effects, Class 1 and III Ratings' clothing and effects, seamen's clothing and effects, battledress, and tropical clothing, miscellaneous clothing, personal effects, and substantive and non-substantive insignia. This is the first book to offer a detailed study of Royal Navy clothing in the 1930s and World War II, and will be a vital resource for collectors, historians, and enthusiasts. All of the major uniform types are superbly illustrated with 470 colour and black and white studio images and period photographs.
