TikTok Broadway Trevor Boffone, 2024 TikTok Broadway Musical Theatre Fandom in the Digital Age explores how TikTok has revolutionized musical theatre fandom and democratized musical theatre fan cultures and spaces. The book argues that TikTok has created a new canon of musical theatre thanks to the way virality works on the app, expanding musical theatre into a purely digital realm that spills into other non-digital aspects of U.S. popular culture. **Global Chart Trends**

Global Chart Trends

Gideon Fairchild, 2025-02-22 **Global Chart Trends** explores why certain songs become global hits by examining the economic and cultural forces that shape musical success. It moves beyond simple observations of chart performance, diving into the interplay between music economics and global culture. The book reveals how macroeconomic factors such as GDP and internet access correlate with music consumption, and it highlights the significant role cultural variables like language and social values play in the reception of international music. The book traces the history of international music charts from vinyl to streaming, illustrating how globalization has transformed music distribution. By combining quantitative data like chart statistics and economic indicators with qualitative insights from case studies and industry interviews, it offers a nuanced analysis. The book offers practical implications for artists, record labels, and policymakers seeking to navigate the global music market. The analysis unfolds by first examining the economic determinants of chart success, then delving into the cultural landscape, and finally investigating the strategies used by industry players. This approach reveals that achieving international chart success requires understanding both economic conditions and cultural nuances and the strategic marketing efforts of artists and labels.
