Contemporary Challenges in Teaching Young Children Gayle Mindes, 2019-09-02 Contemporary Challenges in Teaching Young Children provides both veteran and aspiring early childhood educators with the information and tools they need to build on their understanding of developmentally appropriate practice. Teachers face many challenges including family configuration, social and political stressors related to accountability requirements, funding shortages, and the resulting need to teach with fewer resources. This innovative book focuses exclusively on problem solving at the classroom level and fosters creative methods of ensuring best practices are in place for all children, including those with limited experience in formal social settings and a lack of self-regulatory behaviors. Drawing on current research and their own wealth of experience, expert contributors cover topics from the critical importance of social emotional learning to culturally responsive teaching to using technology to empower teachers and learners. Written in accessible, non-technical language, this book addresses complex factors affecting child development, guiding readers through the best strategies for tackling real problems in their practice.

**Project-Based Learning in the Math Classroom** Telannia Norfar, Chris Fancher, 2022-03-14 Project Based Learning in the Math Classroom: Grades 3-5 explains how to keep inquiry at the heart of mathematics teaching in the upper elementary grades. Helping teachers integrate other subjects into the math classroom, this book outlines in depth tasks, projects, and routines to support Project Based Learning (PBL). Featuring helpful tips for creating PBL units alongside models and strategies that can be implemented immediately, Project Based Learning in the Math Classroom: Grades 3-5 understands that teaching in a project-based environment means using great teaching practices. The authors impart strategies that assist teachers in planning standards-based lessons, encouraging wonder and curiosity, providing a safe environment where mistakes can occur, and giving students opportunities for revision and reflection.
