

Safety Precautions and Working Techniques

Because this mistblower is a tool for spraying chemicals, special safety precautions must be observed to reduce the risk of personal injury.

It is important that you read, fully understand and observe the following general safety precautions and warnings. Read the

instruction manual and the safety precautions periodically. In addition, read and follow the chemical manufacturer's instructions for the chemical products being applied. Since such products may vary greatly in handling/application requirements and risks, the product label is normally your best guide for safe and effective use.

Warning!
Read the label each time before mixing or using the chemical and before storing or disposing of it. Do not trust your memory. Careless or improper use may cause serious or fatal injury.

Have your STHL dealer show you how to operate your power tool. Observe all applicable local safety regulations, standards and ordinances.

All operating and servicing personnel should be trained and familiarized with the proper handling procedures for the chemical products being used, as well as with first aid/emergency care, and liquid chemical disposal regulations.

Warning!
Do not lend or rent your power tool without the instruction manual. Be sure that anyone using it understands the information contained in this manual.

Warning!
The chemicals sprayed with your power tool may contain toxic and/or caustic substances. Such chemicals can be dangerous and cause serious or fatal injury to persons and animals and/or severe damage to plants and the environment.

Avoid direct contact with chemicals. Follow the chemical manufacturer's instructions with respect to any contact with its product.

Use your power tool for spraying chemicals and other liquids to control pests and weeds in fruit, flower and vegetable gardens, on trees and bushes and on other plants, such as coffee, tobacco and cotton. It is also useful in the maintenance of young trees, controlling the bark beetles and other pest diseases.

Warning!
Do not use it for other purposes, since misuse may result in personal injury or property damage, including damage to the machine.

Warning!
Mistors should never be allowed to use this power tool. Byproduct, especially children, and animals should not be allowed in the area where it is in use.

Warning!
To reduce the risk of injury to bystanders and damage to property, never let your power tool run unattended. When it is not in use (e.g. during a work break), shut it off and make sure that unauthorized persons do not use it.

Most of these safety precautions and warnings apply to the use of all STHL mistblowers. Different models may have different parts and controls. See the appropriate section of your instruction manual for a description of the controls and the function of the parts of your model.

Safe use of a mistblower involves

1. the operator
2. the power tool
3. the use of the power tool
4. the handling of the chemicals to be sprayed.

Stihl Sr 340 Power Tool Service Manual

Robert R. Redfield
