Buckley, Jeffery D. Nokes, 2016-03-28 With original primary source documents this anthology brings readers into the vast unknown 19th century American West through the eyes of the explorers who saw it for the first time This volume brings together book excerpts maps and illustrations from 12 explorers from the 19th century highlighting their lives and contributions Arranged chronologically the 10 chapters focus on individual explorers with biographies and background information about and document excerpts from each person The chapters offer analyses of each document s relevance to the historical period geographic knowledge and cultural perspective This guide shares the important contributions from explorers like Lewis and Clark Zebulon Pike Jedediah Smith James P Beckwourth John C Fremont Susan Magoffin and John Wesley Powell It also nurtures readers historical literacy by modeling historians methods of analyzing primary sources Readers will see new and familiar events from different perspectives including that of a woman traveling along the Santa Fe Trail one of the most famous African American mountain men and a Civil War veteran among many others **How the West Was Drawn** David Bernstein, 2018-08-01 How the West Was Drawn explores the geographic and historical experiences of the Pawnees the Iowas and the Lakotas during the European and American contest for imperial control of the Great Plains during the eighteenth and nineteenth centuries David Bernstein argues that the American West was a collaborative construction between Native peoples and Euro American empires that developed cartographic processes and culturally specific maps which in turn reflected encounter and conflict between settler states and indigenous peoples Bernstein explores the cartographic creation of the Trans Mississippi West through an interdisciplinary methodology in geography and history He shows how the Pawnees and the Iowas wedged between powerful Osages Sioux the horse and captive rich Comanche Empire French fur traders Spanish merchants and American Indian agents and explorers devised strategies of survivance and diplomacy to retain autonomy during this era The Pawnees and the Iowas developed a strategy of cartographic resistance to predations by both Euro American imperial powers and strong indigenous empires navigating the volatile and rapidly changing world of the Great Plains by brokering their spatial and territorial knowledge either to stronger indigenous nations or to much weaker and conquerable American and European powers How the West Was Drawn is a

revisionist and interdisciplinary understanding of the global imperial contest for North America's Great Plains that illuminates in fine detail the strategies of survival of the Pawnees the Iowas and the Lakotas amid accommodation to predatory Euro American and Native empires *A Colorado History* Carl Ubbelohde, Maxine Benson, Duane A. Sweeney, 2016-11-14 Before the drought of the early twenty first century the dry benchmark in the American plains was the Dust Bowl of the 1930s But in this eye opening work Kevin Z Sweeney reveals that the Dust Bowl was only one cycle in a series of droughts on the U S southern plains Reinterpreting our nation's nineteenth century history through paleoclimatological data and firsthand accounts of four dry periods in the 1800s *Prelude to the Dust Bowl* demonstrates the dramatic and little known role drought played in settlement migration and war on the plains Stephen H Long's famed military expedition coincided with the drought of the 1820s which prompted Long to label the southern plains a Great American Desert a destination many Anglo Americans thought ideal for removing Southeastern Indian tribes to in the 1830s The second dry trend from 1854 to 1865 drove bison herds northeastward fomenting tribal warfare and deprived Civil War armies in Indian Territory of vital commissary In the late 1880s and mid 1890s two more periods of drought triggered massive outmigration from the southern plains as well as appeals from farmers and congressmen for federal famine relief pleas quickly denied by President Grover Cleveland Sweeney's interpretation of familiar events through the lens of drought lays the groundwork for understanding why the U S government's reaction to the Dust Bowl of the 1930s was such a radical departure from previous federal responses *Prelude to the Dust Bowl* provides new insights into pivotal moments in the settlement of the southern plains and stands as a timely reminder that drought as part of a natural climatic cycle will continue to figure in the unfolding history of this region **The Louisiana Purchase** Junius P. Rodriguez, 2002-06-20 Published in celebration of the Purchase's bicentennial this resource offers a multifaceted view of a watershed American event In one easy access resource *The Louisiana Purchase* brings together the work of over 100 experts covering historical figures relevant legal and historical concepts states that formed in the new territory frontier outposts and the Native Americans uprooted by expansion westward The book examines every aspect and consequence of Thomas Jefferson's momentous transaction the largest real estate deal in American history Readers will learn how the purchase made Manifest
