Communication Technology Update and Fundamentals August E. Grant, Jennifer H. Meadows, 2016-11-03

Communication Technology Update and Fundamentals has set the standard as the single best resource for students and professionals looking to brush up on how communication technologies have developed grown and converged as well as what is in store for the future. The 15th edition is completely updated reflecting the changes that have swept the communication industries. The first five chapters offer the communication technology fundamentals including the ecosystem, the history and structure, then delves into each of about two dozen technologies including mass media, computers, consumer electronics, and networking technologies. Each chapter is written by experts who provide snapshots of the state of each individual field. Together, these updates provide a broad overview of these industries as well as the role communication technologies play in our everyday lives. In addition to substantial updates to each chapter, the 15th edition includes First ever chapters on Big Data and the Internet of Things. Updated user data in every chapter. Projections of what each technology will become by 2031. Suggestions on how to get a job working with the technologies discussed. The companion website www.tfi.com/ctu offers updated information on the technologies covered in this text as well as links to other resources.

Content Confessionals of an Instagram Influencer Joy Harrington, 2020-08-03

Content: The simplest way to show up for your business every single day and yet the HARDEST thing to consistently produce that is good quality, attracts your tribe, and most importantly converts sales. Yes, if you are producing the right content, your sales should convert more easily because you are showing your avatar, ideal client, that you:

- 1 Understand her
- 2 Speak her language
- 3 Are a credible resource
- 4 Have what she WANTS, not just what she needs.

Most people who want an online business or want to be an influencer KNOW that they have to show up daily with content, but they have no idea where to start, what to talk about, or how to package it up correctly, so they either:

- 1 Avoid it
- 2 Do a poor job of it by slapping something up because hey, something is better than nothing, right?
- 3 They look at what others are writing and try to reproduce something similar, thinking that if it worked for others, it will work for them.

Does any of this sound familiar yet? Girl, I've been there because I have done all of these things. When the only training on content is books written about social media selling tactics, it can be hard to translate that to your OWN story, your own business, your own ideal client, and your online presence. Am I right? THIS book will focus on growing you into a master of content with awesome posts AND will also give you the prompts to create your posts right here. Every day when you need to create a post, just open this book, pick the type of post you want to do, and use the prompts to create a post that is AUTHENTIC, engaging, and will set you apart from others in your industry. This happens by sharing your authentic voice in a way that creates bonding with your audience AND sets you up as their teacher/leader that they want to trust and buy from.
