Aguiló-Pérez, Rebecca C. Hains, 2025-09-26 What is the significance of Barbie's journey from toy aisles to screens Barbie in the Media offers a groundbreaking exploration of Barbie as a transmedia phenomenon In examining the brand's multifaceted media presence this volume's chapters consider both Mattel's corporate storytelling about and fans

reinterpretations of the iconic doll. Collectively they reveal that these mediated negotiations of Barbie reflect and contribute to broader discourses about gender and identity in evolving sociopolitical contexts inscribing the doll with ever changing and often conflicting anxieties and dreams. These render the brand's media presence a fascinating site of contested meaning worthy of the sustained critique that Barbie in the Media offers readers.

Culture Human Diversity in Education Kenneth Kushner, Averil McClelland, Hyla Kushner, Philip L. Safford, 2021-03. It is difficult to fathom the myriad changes that have occurred and that influence the content of this book in just three years since the previous edition. As this book goes to press we have witnessed many nations in Europe as well as the United States that have made dramatic political shifts from open and liberal leanings to more populist nationalistic and conservative ideologies. These shifts have been accompanied by an increase in xenophobia and stricter actions to reduce immigration often accompanied by a rise in anti-immigrant, anti-Semitic and Islamophobic sentiment. The conflicts and struggles in Afghanistan, Iraq and Syria continue as tensions between the United States and Russia fester. A questioning of Truth with an onslaught of fake news has emerged having a major influence on the 2016 U.S. presidential election. And we expect numerous changes to occur under the new U.S. Secretary of Education, Betsy DeVos. And these challenges are in the political arena alone. Across the planet people continue to feel the stresses of the seemingly endless changes and challenges they confront on many fronts. Climate change continues to advance resulting in new and unpredictable weather patterns despite a vocal minority that appears to deny its existence. Although making gains people continue to wrestle with questions surrounding same sex marriage and gay rights the question of health care the accelerated identification of children with autism and other disabilities as well as our aging population span cultural differences and cut across geographic political and social boundaries continuing to impact us all at the local, national and global levels. Some people are eager to embrace innovation and change while others struggle through a variety of political and social means to retain older and more traditional ways of doing things. Such challenges continue to enter and impact our increasingly culturally diverse classrooms and communities. To effectively address and solve the multitude of issues we face it is incumbent upon teachers to provide young people with a foundation that will assist them to better understand the complex nature of the world in which they will live while developing the skills that will enable them to be proactive problem solvers in an interdependent global society. This requires people who have the knowledge, skills and motivations to reach beyond their own cultural boundaries and a willingness and ability to collaborate with others. If people are not willing and able to do so these and other future problems simply will not be solved. Developing intercultural understanding and competence must be actively addressed throughout the school curriculum. This

tenth edition of Human Diversity in Education An Intercultural Approach continues to focus on the preparation of teachers and other human service providers who can interact effectively with the wide diversity of people they are certain to encounter and who are able to transmit this knowledge and skill to the individuals in their charge *Analysis of pro-government and pro-TPLF social media activism in the context of Ethiopia's 2020-2022 civil war* Ermias

Getachew,2024-09-19 Thesis M A from the year 2024 in the subject Politics Topic Peace and Conflict Security Addis Ababa University Institute for peace and security language English abstract This thesis is a comparative content analysis of Pro government and Pro TPLF activism during the war and after the signing of the Agreement on Permanent Cessation of Hostilities also known as the Pretoria Agreement in the context of the 2020 2022 Ethiopian civil war The study argues that unlike the military confrontation in the ground those Pro government and Pro TPLF activists played major role in amplifying and exacerbating the war through the social media warfare It further argues that the involvement of different actors behind each Pro government and Pro TPLF activists makes the technological warfare and weaponization trend of social network more complicated and dangerous to sustained peace The study concludes based on the findings that greater efforts are needed to ensure new mechanisms to understand the nature role and dynamics of social media warfare Therefore media literacy work and professional engagement in this field has to be seriously considered
