**The Budget and Economic Outlook, an Update , CBO an Update to the Budget and Economic Outlook: Fiscal Years 2012 to 2022 , The Budget and Economic Outlook** Christine Bogusz,2013 Reports on the state of the Federal budget and the United States economy Each January the Congressional Budget CBO prepares baseline Federal budget projections and the outlook for the United States economy spanning the next 10 years Those projections are not a forecast of future events rather they are intended to provide a benchmark against which potential policy changes can be measured Therefore as specified in law those projections generally incorporate the assumption that current laws are implemented But substantial changes to tax and spending policies are slated to take effect in calendar year 2013 under current law So CBO has also prepared projections under an alternative fiscal scenario in which some current or recent policies are assumed to continue in effect even though by law they are scheduled to change The decisions made by lawmakers as they confront those policy choices will have a significant impact on budget outcomes in the coming years
