Seagren,John W. Creswell,Daniel W. Wheeler,1993-02-14 This monograph explores the changing role of the academic department chair in the areas of leadership influence and faculty development The paper uses research insights to explore the situation of an academic chair who is squeezed between the demands of upper administration and the expectations of faculty staff and students Studies of the roles and responsibilities of chairs consistently show that the role is

ambiguous unclear in authority and difficult to classify as faculty or administrator The tradition of faculty ownership dictates that chair leadership must emphasize empowering activities The most effective use of political influence and power understands the political forces and processes of the institution and maneuvers groups and coalitions to achieve the autonomy and control necessary to a strong department Faculty evaluation provides a chair with a powerful opportunity for developing quality In addition the chair must recognize how institutional type history and culture model of governance and discipline can influence what is expected In the coming years chairs will need a program of professional development on many fronts to acquire the skills to address the complex challenges they will face Contains over 200 references JB *Law Office Management*, 1989 Law Office Management, 1989, 1989 **The Academic Chair's Handbook** Daniel W. The Department Chair as Academic Leader Irene W. D. Hecht, 1999 This important new work will help department chairs faculty and administrators understand and address the increasing complexity of relationships within higher education as well as the growing influence of external factors The Department Chair as Academic Leader is a completely updated revision of Allan Tucker's seminal contribution Chairing the Academic Department last published in 1992 This work reflects the approach used in the ACE Workshops for Division and Department Chairs and Deans **Department Chair Leadership Skills** Walter H. Gmelch, Val D. Miskin, 2011 Authors Gmelch and Miskin have focused their academic careers on supporting and training chairs for one of the most challenging jobs in academia Both have written extensively and have conducted training workshops throughout the country Here they focus their efforts on the specific skills needed by chairs in order to effectively lead their departments In the first chapter authors Gmelch and Miskin clearly assert their concern for chairs and for their work The time of amateur administration where professors play musical chairs stepping occasionally into the role of department chair is over Too much is at stake in this time of change and challenge to let leadership be left to chance or taking turns The department chair position is the most critical role in the university and the most unique management position in America The search for solutions to academia's leadership dilemma leads us to realize that the academic leader is

the least studied and most misunderstood management position in America Leadership in academia has evolved into a complex array of specialized skills For department chairs this book becomes an individual leadership seminar complete with strategies and exercises that will foster growth and encourage professional fulfillment **Strengthening Departmental Leadership** Ann F. Lucas,1994-10-04 A first rate book well worth reading Ann Lucas has taken years of research and reflection and distilled them into an easily understood useful volume designed to help department chairs develop their leadership skills William E Cashin director Center for Faculty Evaluation and Development Kansas State UniversityThis book is a practical guide to developing the survival skills that chairs need in order to function as leaders and build cohesive teams in departments **Chairing Academic Departments** N. Doug Lees,2006 What role does the position of department chair occupy in higher education today Once characterized as largely a management function the 21st century department chair is now facing a host of emerging challenges that require additional skills and fresh approaches to fulfilling the role In Chairing Academic Departments the author offers experience based suggestions for new existing and potential chairs as they face a higher education enterprise that is undergoing significant change While acknowledging that many traditional responsibilities and expectations will remain unaltered the author also identifies several dynamic functions from entrepreneurial work and fundraising faculty evaluation and motivation student recruitment and retention problem solving and interpersonal interactions such as advising meditating and mentoring The author navigates the changes arising in the role of department chair by offering valuable insight in the following areas Characteristics of effective department chairs How to work with and advocate for internal constituents Managing and disseminating information Recruiting retaining and evaluating faculty Fiscal responsibility and strategic planning Benefits of serving as department chair Planning to exit the chair position While the position of department chair will continue to evolve Chairing Academic Departments equips readers with the situational understanding and practical advice they need to meet the demands of tomorrow Effective Leadership Communication Mary Lou Higgerson,Teddi A. Joyce,2007-01-15 Conflict can appear with varying degrees of intensity or hostility but if ignored or managed ineffectively it can slow or jeopardize an institution s success Chairs and deans who have leadership responsibilities to both administrators and faculty often find a significant portion of their jobs devoted to conflict management Their leadership success depends on their ability to effectively manage a variety of conflict laden situations and negotiate people s varying needs and personalities This book at its core is about communication strategies that support effective leadership First it shows how to establish a foundation for effective leadership communication next it discusses developing a fair and effective leadership communication style and finally it shows how to employ leadership communication to manage especially difficult people from prima donnas to pot stirrers Each chapter contains a series of questions and prompts to guide readers through a hypothetical but realistic situation and encourages them to cultivate and practice the first person participant and third person observer roles By moving between these two perspectives readers will gain more

insight into their own style of managing conflict and understanding of leadership This skill also permits academic leadership to have more strategic control over the communication in a particular situation thus empowering them to feel and to be more in control in every situation *Departmental Management and Leadership* James Nielson,1992
