The Dark Social Toija Cinque,Alexia Maddox,Robert W. Gehl,2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to be belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of

The Magisterium-theology Relationship Anthony J. Figueiredo, 2001 This study presents contemporary theological conceptions of the magisterium-theology relationship in the United States as found in the writings of classical theologians and three elder statesmen of theology Avery Cardinal Dulles, Fr Francis Sullivan and the late Fr Richard McCormick. It also examines the pronouncements of the U.S. Bishops both as a Conference and as individuals on this theme. The work addresses such important issues as the relationship between theological reasoning and magisterial statement, dissent, the natural moral law, the grades of Church teaching and the conditioning of dogma. The study aims to determine the definitive foundation for a correct rapport between magisterium and theologians

Business Data Communications and Networking Jerry Fitzgerald, Alan Dennis, Alexandra Durcikova, 2020-11-26 Business Data Communications and Networking 14th Edition presents a classroom tested approach to the subject combining foundational concepts, practical exercises and real world case studies. The text provides a balanced, well rounded presentation of data communications while highlighting its importance to nearly every aspect of modern business. This fully updated new edition helps students understand how networks work and what is required to build and manage scalable mobile and secure networks. Clear student friendly chapters introduce, explain and summarize fundamental concepts and applications such as server architecture, network and transport layers, network design processes and tools, wired and wireless networking and network security and management. An array of pedagogical features teaches students how to select the appropriate technologies necessary to build and manage networks that meet organizational needs, maximize competitive advantage and protect networks and data from cybersecurity threats. Discussions of real world management and technical issues from improving device performance to assessing and controlling costs provide students with insight into the daily networking operations of actual businesses
