Evans, 2009-07 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. **The Open Window into the Soviet Bloc** Jakub Tyszkiewicz, 2023-09-29 This volume analyzes US policy toward communist ruled Poland in the fields of diplomacy, economy, culture and public diplomacy. It highlights the limitations in developing cooperation between democratic and nondemocratic countries resulting from the Cold War conflict. No comprehensive account of US policy toward Poland from 1956 to 1968 has emerged in historiography. This book aims to answer why, since the political changes of the Polish October 1956, Washington ceased to see Polish affairs as Soviet related matters. Instead, it recognized communist ruled Poland as a separate political entity among other Kremlin dependent states in Eastern Europe. This policy, introduced by the Dwight D. Eisenhower administration, was continued by his successors John F. Kennedy and Lyndon B. Johnson. Recently declassified US and Polish archival sources allow the presentation of more considerations around the decision making mechanisms by presidential administrations regarding communist Poland after 1956. They also reveal the dependence of the implementation of US actions on the climate of international relations. Moreover, they can now explain how Poland became an open window toward the Soviet bloc and a model example of the changes in the US policy of diversifying its approach to Eastern European countries under Soviet control in the next decades.

**The Window Before** Brett V. Benson, Bradley C. Smith, 2025-12-31 *The Window Before* examines how military alliances are implemented and why they take time to become fully effective. The book explores how the anticipation of a new alliance can lead to preventive wars where targets act aggressively to stop the alliance before it's fully operational. It also discusses strategies allies use to avoid provoking conflict while still benefiting from their partnership. The book brings these insights to bear on contemporary global tensions, including the ongoing war in Ukraine, China-Taiwan relations, and the emerging no-limits security partnership between Russia and China.

*Optical Play* Julia Bekman Chadaga, 2014-10-31 Chadaga's ambitious study proceeds from the idea that glass in its uses as a material object and as it was depicted in works of art is a key to understanding the evolution of Russian identity from the eighteenth century to the middle of the twentieth.
