**The Crooked Ladder** James M. O'Kane, 2017-09-04 Ethnic organized crime is a phenomenon that has been largely ignored by social scientists and historians and dismissed as a subject not to be taken too seriously by those researching the mobility patterns of their own ethnic ancestors or current minority newcomers The Crooked Ladder represents a groundbreaking attempt to describe how some members of ethnic minorities have utilized organized crime as one vehicle of upward mobility advancing from lower class status to middle class power and respectability O Kane illustrates the criminal road to prosperity as a process of displacement and succession each group competes with and eventually eliminates its more established predecessor from the upper echelons of organized crime This historical criminal succession mirrors the upward mobility of the Irish Jews and Italians in the larger conventional noncriminal realm Arguing that African Americans Asians and Hispanics are pursuing similar criminal routes O Kane takes issue with contemporary social scientists who view the current plight of minorities as unique in American social life As a fundamental rethinking of the American ethnic experience with crime The Crooked Ladder will be essential reading for social historians sociologists and criminologists Now available in paperback it will be useful in criminology courses and well as classes in ethnicity and social relations **Catalog of**

novels of the 1920s and 1930s usually regarded as belonging to the genre of hard boiled fiction The novels under study are Red Harvest by Dashiell Hammett The Postman Always Rings Twice by James M Cain They Shoot Horses Don't They by Horace McCoy and To Have and Have Not by Ernest Hemingway In this first full length study of gender in hard boiled fiction the genre is discussed as a representation of the ideologies of masculinity and individualism Hard boiled fiction is located in its historical and cultural context and it is argued that the genre with its explicit emphasis on masculinity and masculine virtues attempts to reaffirm a masculine order The study argues that this emphasis is a counter reaction to more general changes in the gender relations of the period Indeed hard boiled fiction is argued to be an attempt to reconstruct a masculine identity based on anti modern values generally accepted in the cultural context of the genre **Books in Print**, 1962
