Estimate Paddy Area and Production Lea Rotairo,Asian Development Bank,2019 A substantial portion of the world s rice
is produced and consumed in the Asia and Pacific region As much of the region s population depends on rice farming for
consumption and livelihood the demand for good quality statistics remains essential for effective policy formulation Recent
advances in remote sensing serve as a viable alternative to traditional methods of compiling agricultural statistics by
responding to the emerging data requirements and overall needs of modern agriculture especially for staple commodities
such as rice This publication outlines the procedures methods and tools developed for generating statistics on paddy rice
area and production using remote sensing and GIS techniques It is intended to encourage and assist national statistical
systems in piloting and adopting satellite based techniques as an alternative to existing data collection methods while
enabling other interested readers to comprehend whether the adoption of these methodologies can improve the quality and
