

# MIDDLE CLASS SCHOLARSHIP UPDATE

---

## The Middle Class Scholarship will be delayed!

We want to provide an update regarding the Spring 2025 Middle Class Scholarship (MCS). We anticipated disbursing the spring portion of this award this month. However, **the California Student Aid Commission (CSAC) has requested all statewide MCS disbursements be delayed until further notice. CSAC is currently working to resolve an issue and will notify campuses when MCS disbursements can resume, as well as any changes to the MCS award.** This should not impact the disbursement of your other financial aid for the spring term.

We understand that this delay may cause an inconvenience. Rest assured; we are working closely with CSAC to determine the final MCS spring term award amount and will keep you informed of any developments.

**UPDATE: We have received the “green light” and should be disbursing the spring portion of the Middle Class Scholarship by the end of this week!**

web vector addition can be defined as the procedure of adding two or more vectors vector addition formula for given points  $a_1, b_1, a_2, b_2$  according to the parallelogram law if two vectors can be represented as two adjacent sides from a common vertex and then completed as if they are forming a parallelogram then the sum can be

web nov 9 2023 vector addition is commutative by this principle the order of vectors to be added does not impact the result of the addition let two vectors  $p$  and  $q$  be added together then  $p + q = q + p$  vector addition is distributive it suggests the sum of two vectors equals the sum of the scalar times of the two vectors singularly

web oct 16 2023 vector addition is a mathematical operation that combines two or more vectors to produce a new vector called resultant vector while we can simply add any two scalar quantities but while adding the two vectors we need to be careful about their direction which are given by their unit vectors
