escalatory actions when drones are attacked than they are with incidents involving inhabited assets Lin Greenberg s findings prove conclusively that drones are far less destabilizing than commonly argued Drones add rungs to the proverbial escalation ladder and in doing so have brought about a fundamental change a revolution in the character of statecraft With the use of unmanned technologies only set to grow in coming times The Remote Revolution is critical reading about their possibilities and politics **School Library Journal** ,2010 Strategic Finance ,2006-07 **The Publishers Weekly** ,1927
