The Top 100 Drugs e-book Andrew Hitchings,Dagan Lonsdale,Daniel Burrage,Emma Baker,2014-03-30 Prescribing for the first time is a nerve wracking experience Of all the tasks performed by new doctors it is probably the one with greatest direct impact on the wellbeing of patients Safe and effective practice rests on a good understanding of both clinical pharmacology and practical prescribing Acquiring this is not easy particularly when faced with reams of information about hundreds of unfamiliar drugs often presented in a way that appears detached from clinical reality This book is your starting point It is a direct response to requests from students for a compendium of the 100 most important drugs in the NHS Key information about the clinical pharmacology and practical prescribing of each drug is presented side by side allowing you to direct your attention as appropriate for your stage of training Drugs can be accessed alphabetically when you need quick information on the wards and by organ system or clinical indication when you are at your desk Research led by Professor Emma Baker has identified the top 100 drugs by their importance and prescribing frequency She has shown that the list changes little over time making it a stable resource upon which to base learning The top 100 drugs and the five most important intravenous fluids are presented using a clear consistent layout across double page spreads Drugs are arranged alphabetically and also listed by organ system and clinical indication providing multiple pathways into the information Clinical pharmacology is discussed under the headings common indications mechanisms of action important adverse effects warnings and important interactions Practical prescribing is discussed under the headings prescription administration communication monitoring and cost A clinical tip is presented for every drug Single best answer questions are provided for self assessment and to show how

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
