Top 10 Books To Read:

Read It Forward Linda Kay, 2013-09-26 With this practical guide it's easy to implement the proven fun and learning of a read it forward program in your middle school library. Teens recommend books to other teens offering a surefire way to promote books and reading. Finding the right book for each student is almost impossible if you serve several hundred students as most school librarians do. Read It Forward offers an innovative way around that problem: a program that lets librarians saturate the school with a title that encourages middle school students to read for pleasure. As an added bonus, Read It Forward RIF creates learning opportunities that can be leveraged across the curriculum. The program presented here is based on the author's experience with a community RIF project that was a collaborative effort among nine middle school librarians from schools with varying needs and socioeconomic levels. This thoroughly practical book takes librarians through the process step by step, offering specific examples of what worked and what didn't, then showing how the process can be extended to almost any book. The author also discusses other aspects of running a successful RIF program such as getting buy-in from school administrators, the PTA, and department chairs so that parents and teachers can collaborate in the experience.

"I Hate Reading" Justin M. Stygles, 2022-09-19 It can take a lifetime to eradicate a reader's shame, or it can take one great teacher. Shame-bound readers want someone to notice them. It's true. But then what does a teacher do to help students? Justin Stygles found fresh answers in Gershen Kaufman's seminal research on shame and applied it to his teaching. The results proved to him and now us that building relationships and taking deliberate actions to alleviate shame is crucial. With this remarkable book, Stygles shows us how to build an interpersonal bridge with students and make vulnerability okay. But make no mistake: disengaged readers need to feel competent before they fully buy in, and so the author packs the book with powerful instructional ideas. Learn to spot all the distress signals including withdrawal, perfectionism, and compliance. Help students see that they are not permanently locked out of a reading life. Use assessment instruments to note and celebrate incremental change. Plan mini units that develop skills in concert with engagement. Design small group experiences that are free of levels and other shame-inducing labels. Pump up independent reading with scaffolding and sociability. Harness writing about reading to convince students of their uniqueness. The shame factor is real. It's time we meet it head-on with innovation and the best thinking from multiple research fields. *I Hate Reading* is the tool that does just that.
