**Followers** Merlin Cullinan, 2014 Today it is too easy to amass a fortune at others expense and there are no comebacks In a world where people serve ideas and causes because they care the very same people are exploited for their apparent weakness a gross lack of respect Values of honour and rights have been lost or tarnished voices drowned by the noise of money Somewhere it has been decided that the world has lost its moral compass and the time has come to provide the stimulus to create a new direction and a fresh level of responsibility to others Watch out You don t know us But we know you We harness global communications systems to watch closely when values of honour and rights have been lost or tarnished voices drowned by the noise of money And we use the cyberpower at our fingertips to take swift and slick action With or without your approval Take care We have the resources to implement a new religion of Respect Piece by piece the puzzle builds up to an uncomfortable awakening Someone out there is taking steps to dispense with the people exploiting others and showing lack of respect for the society they live in If you are on the List be prepared to listen to the Message or take the consequences This work speaks of a new and different age drawing on the power of science and technology to prompt ethical change Where those don t address their own moral shortfalls there are other people whose role it is to step in with a message and the results can be terminal
