TO FIND MEANING IN OUR DAILY EXISTENCE

## 1. PATIENCE AND TOLERANCE

Being tolerant implies allowing the occurrence or existence of things you don't necessarily agree with.

## 2. ACCEPTANCE

The acceptance principle is all about acknowledging and coming to terms with the realities of given situations in life.

## 3. OPEN-MINDEDNESS

Being open-minded allows you to listen to opposing viewpoints before you conclude.

## 4. GRATITUDE

Exercising gratitude saves us from discontent by magnifying the importance of things we have, however insignificant they may seem.

## 5. HOPE AND FAITH

If your life is in a mess, the only way out is having hope and faith since you'll get to see a brighter and better future for yourself and humanity.

## 6. FORGIVENESS

Forgiving is about letting go, rather than condoning or approving what others have done to you.

## 7. HONESTY

It's easier to be honest to others, but you can only master the spiritual principle of honesty when you start being honest with yourself.

## 8. HUMILITY

Humility is liberating since it allows you to pursue your goals at your own pace.

## 9. INTENTION

The spiritual principle of intention stems from the belief that you'll focus your thoughts and actions towards achieving your objectives.

**Create**

**PROSPERITY** LaTeef Terrell Warnick,2011-02 Creating prosperity begins with the spiritual principles of consciousness Learn to create true lasting prosperity The Law of Attraction is a widely misunderstood concept that focuses on the result of thought and not the cause The Law of Attraction is the most popular term for using the power of visualization and understanding the connection between our thoughts and our experiences But is it truly the most accurate interpretation of how we really experience life In order to examine this idea we must understand a little about the mind Most of psychology and science acknowledge that there is at least a conscious mind and a subconscious mind Freud speaks of the id ego and superego but he is primarily referring to the personality Yogis on the other hand believe that there is a superconscious or universal mind We all have access to the higher level of mind In fact many would go further to suggest that this is the only true mind This is the mind of Spirit or God The rishis believe that there is only one Creator and this Essence is the only source capable of an original thought and power So how does this relate to our conscious minds Well it suggests that no one has ever had an original thought Einstein didn t think up the Law of Relativity It already existed way before he was able to merely crack the code to understand it Similarly all ideas of Newton s Laws of Motion Quantum Physics Electricity Magnetism etc already all exist since the beginning of creation We as man simply are attempting to understand these laws of nature that are the source of creation and the world around us So to come full circle due to a power of maya which is an illusion of individuality we believe ourselves to be separate entities The fact is that we are have always been and will always be intrinsically connected not just to one another but to the Source of all creation manifestation and the universe itself To go one step further the soul which is immaterial is made in the image and likeness of Spirit which is also immaterial This means that our connection and reality transcends physical creation We are truly spiritual beings Likewise we even transcend the

mind Scripture says be still and know that I am God This stillness is more than just keeping the physical body still Through the practice of yoga you learn to still the mind and even the respiration internal organs and ultimately the prana which is the intelligent life force within the physical and astral bodies Samkhya Yoga discusses the 24 principles of creation This is a very intricate discussion but what it suggests is that we don t truly ever attract anything We are creators However we create on a much more subtle level and through the perception of individuality and the illusion of separateness our ability to tap into our highest power and source is filtered or diluted through the ego Thus some who are in tune with the universal mind and infinite power within are able to create or manifest ideas objects experiences etc almost instantaneously as in the cases of the miracles performed by Jesus and many other enlightened masters While the majority of mankind creates or attracts if you prefer ideas objects experiences etc that we sometimes desire but many times do not desire as they don t always suit our pleasures preferences or wants The key to becoming a more effective creator is to learn to still the mind tap into your power source and learn the connection between manifesting the higher frequency vibrations of thought into the grosser vibrations of matter that we perceive as real relative experiences in life Many rivers One Ocean many branches One Tree many paths One Destination many stories One Truth 1 S O U L Publishing

**Mature Leadership** Daniel E. Harris,Lori Holyfield,Linda Jones,Rhonda Ellis,Judi Neal,2019-02-21 The book goes beyond theory to offer tools and suggestions for developing emerging leaders Inspired by the pioneering work of leadership scholar Andre Delbecq this book points towards an expanded model of leadership that incorporates an active inner life and posits that such fully human models of leadership will be essential to meet the profound challenges of the 21st Century Without presuming to provide definitive answers the text explores central questions such as What is the added value of spiritual maturity to leadership Would the integration of mature spirituality with well developed intellectual and emotional capacities produce more beneficial leadership outcomes for organizations and individuals What would a spiritually and developmentally mature emerging leader look like in 10 to 20 years How do we prepare emerging leaders for the challenges they may face and how do we model spiritually and developmentally mature leadership in ways that resonate with them Professor Andre Delbecq 1936 2016 of the University of Santa Clara created the heuristic of spiritually and developmentally mature leaders to encapsulate his observation that outstanding leaders often seemed to draw strength and wisdom from sources that are not typically studied or taught in leadership courses Thirty scholars and practitioners accepted Delbecq s heuristic as the starting point to explore spiritual components of leadership that do not easily lend themselves to quantification or clear causal links The analysis of their disciplined engagement with the heuristic forms the foundation of an exploratory fully human understanding of leadership This analysis is supported by literature reviews including an overview of Andre Delbecq s relevant work Ultimately the authors call for further collaboration across disciplines and between research and practice to build on the conceptual constructs offered here and especially to create pedagogies for the training of spiritually and developmentally mature leaders

12 Hours of Applying Spiritual Principles Intermittently(Revised Addition) S Scott Jr,2023-05-19 This book is a set of spiritual principles written in the order of 12 that can be simply applied to your life while you re awake Most of us are at work in school or with family 12 hours out of our day From 6 00 to 6 00 7 00 to 7 00 8 00 to 8 00 or 9 00 to 9 00 During these hours we have a perfect time to practice spiritual principles in order to make the best of our day Also if you wish to practice each one of these principles for 1 hour 2 hours 3 hours 4 hours a day feel free to do so For some we have behaviors or unhealthy habits that we would like to remove in our life and these spiritual principles can be done in place of those habits in order to better our quality of life For some people who fast intermittently for 12 hours of the day these spiritual principles can help you focus on your goals in life how to achieve them or how to improve your relationship with God **The Invisible Garment** Connie Cockrell Kaplan,2004 The Invisible Garment introduces a set of principles that reminds us of the wonder of life the breathtaking nature of each person s uniqueness and the incomparable miracle of humanity When we come to discover our own configuration of principles we come to realize the beauty of our being And when we begin to articulate those principles we can begin to experience that all embracing energy of love which is the fabric of the universe living itself through us And as we begin to wear our own invisible garment whether impeccably or imperfectly we contribute to the tapestry of society It may seem ludicrous in this scientific age to put forth the possibility that human life is influenced and guided by intangible spiritual principles It is perhaps even more outlandish to suggest concrete ways to discern those principles And most frivolous is the idea that one uses those principles to design the blueprint for one s life before his or her birth That is tantamount to saying that each person is a divine co creator of life In this revolutionary work Dr Kaplan makes

all of these unorthodox although not original suggestions including that in other dimensions of consciousness each of us writes a pre natal contract with life that we sign and seal at first breath Book jacket Basic Spiritual Principles Steven J. Gold, 2011-03-01 The idea of this book is to present in simple and straightforward terms some basic principles related to spirituality and spiritual processes and revelations It contains expressions and formulations of some basic truths that have been divulged in various forms and fashions over the ages drawing from eastern and western spiritual traditions As such it provides a framework to help address life's essential existential questions
