*Growing Old* Danielle Quinodoz, 2014-05-22 People react very differently to the process of ageing. Some people shy away from old age for as long as they can and eventually spend it reflecting on times when they were physically and mentally stronger and more independent. For others old age is embraced as a new adventure and something to look forward to. In this book psychoanalyst Danielle Quinodoz highlights the value of old age and the fact that although many elderly people have suffered losses either of their own good health or through bereavement most have managed to retain the most important thing their sense of self. Quinodoz argues that growing old provides us with the opportunity to learn more about ourselves and instead of facing it with dread it should be celebrated. Divided into accessible chapters this book covers topics including the internal life history, remembering phases of life, anxiety about death, being a psychoanalyst and growing old. Throughout *Growing Old* the author draws on both her clinical experience of working with the elderly and her own personal experience of growing old. This makes it an interesting read for both practising psychoanalysts and those who wish to gain a greater insight of the natural progression into later life.

## **Family Therapy Supervision in Extraordinary Settings** Laurie L.

Charles, Thorana S. Nelson, 2019-04-26 *Family Therapy Supervision in Extraordinary Settings* showcases the dynamism of systemic family therapy supervision consultation as it expands beyond typical and historical traditions. In this unique collection contributors write about their innovations, unexpected learnings and perfect accidents in the context of systemic therapy. These essays highlight creative approaches to supervision present a wide variety of clinical cases and therapy settings and demonstrate how training takes place in real time. Each chapter illustrates increasingly diverse settings in which systemic family therapy services are delivered whether in public mental health care for families across high, low and middle income countries in areas of armed conflict or instability due to political violence or war or stable liberal democracies with robust public mental health systems. Each setting of supervision is extraordinary in the way it supports family therapy service delivery. Given the wide variation in access to systemic family therapy services and the diverse settings in which systemic family therapy services are delivered a set of brief, specific and lively cases is called for that focus on the dynamic nature of a family therapy supervision and consultation interaction and its influence on clients, trainees and supervisors. Working as a family therapist in the world today an era of global mental health is as full of wonder and challenge as it was in the time family therapy originated as a profession. It is thus no accident that supervision and consultation work is just as extraordinary. This book will be essential reading for family therapy and counseling supervisors as well as a helpful reference for supervisees.
