influence of the messages distributed through TikTok that redefine political scenarios and of the relationships of politicians and parties with voters. The core of the book comprises case studies that are organised into three parts with nine chapters in all. The authors are scholars and practitioners of political communication with diverse geographical representation who approach the topics from a range of methodological perspectives. The first part addresses the state of the art and the influence of TikTok features on the way political communication is performed. The second part discusses the influence of TikTok on electoral scenarios and political culture in India, Bangladesh, the United States and Ecuador. Finally in the third part TikTok is analysed as an instrument for promoting far right politicians and parties in Europe as in the case of Matteo Salvini in Italy and AfD in Germany and Vox in Spain. The volume is oriented to both scholars and communication professionals such as journalists, communication consultants and speechwriters who want to become familiar with the platform, learn about its political impact or wish to deepen their understanding of transformations in communication techniques and their adaptation to this growing social medium. Chapter 2, 'The Moving Body as the Articulator: Meme and Affective Link in Political Communication on TikTok' is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://link.springer.com).

Mindich's *The Mediated World* charts the story of media as it has shaped human life and as it infuses every aspect of our modern existence. Mindich's engaging narrative style focuses on concepts and real world contexts to promote the media literacy students need to understand their personal relationships with media.
