patents and other intellectual property are protected That couldn't be farther from the truth as insider threats continue to grow These include Well intentioned employees inadvertently sharing proprietary data Departing employees taking your trade secrets with them to the competition A high risk employee moving source code to an unsanctioned cloud service What is the solution It's not the hunt for hooded malicious wrongdoers that you might expect The new world of data security is built on security acting as an ally versus an adversary It assumes positive intent creates organizational transparency establishes acceptable data use policies increases security awareness and provides ongoing training Whether you are a CEO CIO CISO CHRO general counsel or business leader this book will help you understand the important role you have to play in securing the collaborative cultures of the future [The art of Self Publishing and Website creation](#) Premyogi vajra,2021-01-02 This book is a compilation of Premyogi vajra's blog posts that he has created for demystifyingkundalini.com Premyogi vajra is a self aware and mysterious person With his Kundalini awakening there was a flood of high mentality in his brain Impressed by that he created many books and the above website Regarding his experiences related to book publishing and website making he made them known as his blog posts A separate chapter has been created for each article Readers will surely find this e book interesting informative and comfortable to read Knowledge sharing is a fundamental tool to grow a society Experience gained without subsequent sharing is of little value It remains confined to a single man and gets perished with him Therefore to be able to properly and easily share one's experiences one must know at least basics of self publishing and website creation for these are basic modern tools of sharing knowledge Writer had to deal with great deal of hassle while learning self publishing and website creation He took many years to learn their basic tips So that people do not get suffered like himself he complied all tips he got while learning these in form of this book Hope that people will find this book brief practical and easy Friends if the art of sharing experiences with everyone is not learned then those experiences would not have special significance Those experiences remain confined to that single man and perish with him In today's times websites and e books are the most important means of sharing experiences Therefore it is important for everyone to have basic knowledge of website creation and self publication This book serves very well the same purpose of achieving this goal

[The Science of Intelligent Achievement](#) Isaiah Hankel,2017-11-30 Smart strategies for pragmatic science based growth and sustainable achievement The Science of Intelligent Achievement teaches you the scientific process of finding success through your most valuable assets Selective focus how selective are you with who and what you let into your life Creative ownership how dependent are you on others for your happiness and success Pragmatic growth how consistently and practically are you growing daily First this book will show you how to develop your focus by being very selective with where you spend your mental energy If you've failed to reach an important goal because you were distracted misinformed or overcommitted then you know the role focus and selectivity play in achievement Second you will learn how to stop allowing your happiness and success to be dependent on other people and instead start taking ownership over your life through

creative work Finally you will learn the art of changing your life through pragmatic decisions and actions Self improvement is not the result of dramatic changes Instead science has shown that personal and professional change is initiated and sustained by consistent practical changes To grow you must leverage the power of micro decisions personality responsibility and mini habits Your own biology will not let you improve your life in any other way What do you currently value What are working to attain Have you been taught to value your job title or your relationship with some other person above all else Have you been convinced that the most valuable things in life are your paycheck the number of people who say hello to you at the office and the number of people who say I need you at home Or have you become so passive in what you value that you let anyone and anything into your life as long as whatever you let in allows you to stay disconnected from the cold hard truth that when things really go wrong in your life the only person who will be able to fix it and the only person will be responsible for it is you If so welcome to fake success Passivity dependence and the sacrifice of practical thinking and personal responsibility to fuzzy grandiose ideals and temporary feelings these are markers of fake success Intelligent Achievement on the other hand is not a moving target It s not empty either Instead it s sturdy full and immovable It s not something that s just handed to you It s not something you re nudged to chase or coerced into wanting Intelligent Achievement comes from within you It s a collection of values that are aligned with who you are values you have to protect and nurture These values do not increase your dependence on other people and things Instead they relieve you of dependence This kind of achievement is something that you have a part in building from the ground up you know what s in it you chose it someone else didn t choose it for you Achieving real success means you must focus create and grow daily The Science of Intelligent Achievement will show you how
